TRADE-MARK

Automatic Oil Burner

Listed as standard by the National Board of Fire Underwriters and approved by Insurance and Municipal Authorities wherever sold.

After careful investigation, we believe this burner to be absolutely the most

Quiet... No vibration

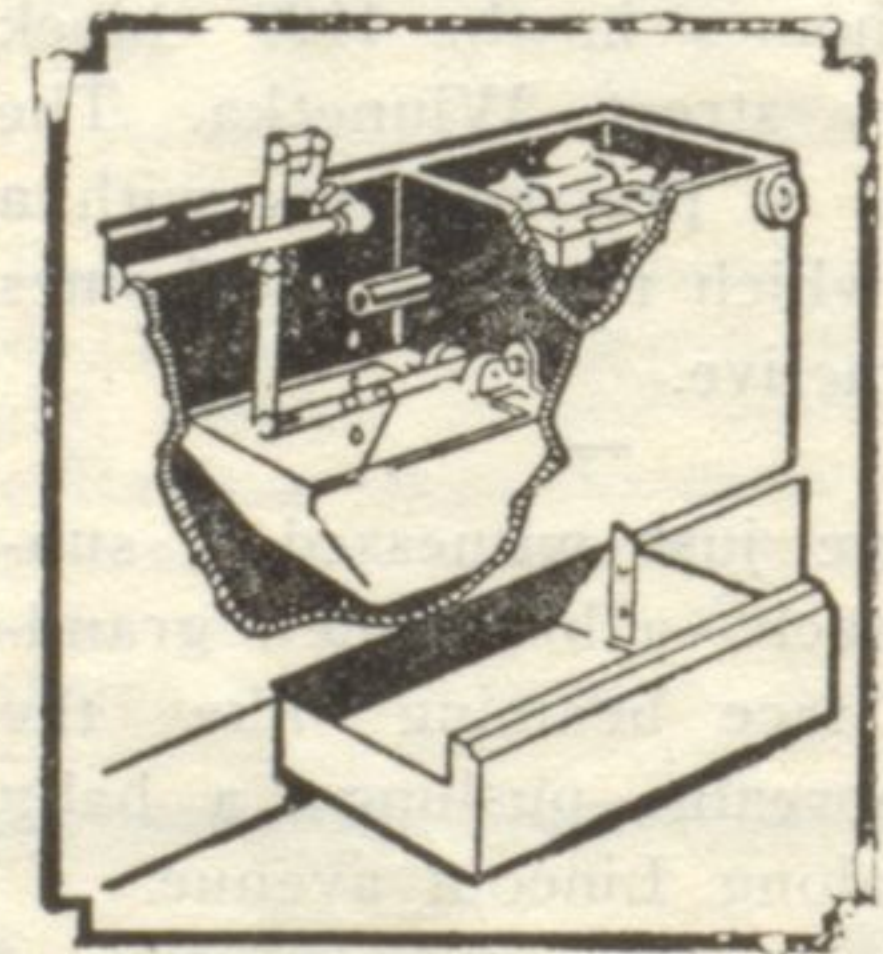

Economical... Burns low grade fuel oil

Reliable... Dependable automatic controls, forced feed lubrication

Automatic Syphon Breaker, an exclusive Aetna invention, positively prevents oil from syphoning out of tank, should a leak develop in any part of the pipe lines.

Strong and Compact, mechanically perfect and guaranteed. Manufactured for 10 years; over 10,000 installations.

\$1,000,000 paid up capital.

For Complete Safety!
Should the burner be started when the pilot is not lighted, the AETNA trip-bucket automatically shuts off the burner and checks the flow of oil. An exclusive AETNA safety feature.
