

North Shore Line Now Has Electric Refrigerator Cars

Delivery of perishables and cold storage products by electric refrigerator cars has been inaugurated by the Chicago, North Shore and Milwaukee Railway company—the North Shore line—between Chicago, Waukegan, Racine, Kenosha and Milwaukee.

This is the first regular service of this nature ever instituted by a railroad in the United States.

The cars being used in this type of merchandise despatch service were especially built for the North Shore line. They are equipped with ammonia compressor, ammonia condenser and water cooling apparatus, all of which is operated by electricity. Thermostatic control apparatus maintains an even temperature at all times, while the air-cooling method of refrigeration insures cleanliness and preservation of shipments in first-class condition during transit.

Each of the five cars in the initial service is equipped with control and air-brake apparatus and control cabins at each end. They are finished on the style of the regulation North Shore line passenger coaches, the absence of windows and passenger entrance being the only deviation in exterior appearance. The cars are being operated in conjunction with the regular merchandise despatch service of the North Shore line.

Among the north shore girls going to the University of Illinois this fall are Jean Drayer, Eleanor Thayer, Gertrude Brown, Dorothy Hall, Jane Owen, Ethel Colwell, Marian Thayer, Edith Adkins, Harriet Newey, Frances Howard, Elizabeth DeBerard, Helen Southward of Wilmette; Faye Reiner, Olga Mengel and Elizabeth Stutson of Winnetka; Dorothy Steele of Glencoe.

College President Returns

Miss Edna Dean Baker of Evanston, president of the National Kindergarten and Elementary college, and her sister, Miss Clara Belle Baker, director of the Children's school of the college, returned Friday evening from a delightful trip through the South, which included a voyage by steamship from New York to Jacksonville, and motor trips through Miami and southern Florida, returning by way of Washington.

Miss Baker has returned to complete the final preparations for the opening of the fall term in the college, registration for which begins Friday, September 10.

Montessori School to Be in New Home Soon

The North Shore Montessori school for children from 3 to 8 years of age conducted during the past nine years in the Winnetka Woman's club, will in the future be carried on in its own home, a house now being remodeled for the purpose at 761 Cherry street between Ridge and Linden avenues in Winnetka.

Here, it is hoped, the children may find an environment peculiarly suited to their needs and capacities, a real "Casa dei Bambini" where the educa-

tional principles of Dr. Montessori may successfully be carried out, it is said.

Until the new building is completed, school will be conducted as heretofore in the Winnetka Woman's club and will open Monday, October 4.

Miss Emilie Durham of Kenilworth is leaving Tuesday to enter Sullins college, Bristol, Va.
