

Junior Red Cross Renews Activity at School Opening

To carry on the greatest service to all mankind, is the aim of the 456,833 school boys and girls enrolled in Chicago area Chapter Junior Red Cross.

The work of these people is carried on through their school work and a large part of the Junior program is divided into three parts, "Fitness for service" includes the making and ex-

hibiting health posters, suggesting health habits, food, and exercise. "Service to Others" is work which may be done in the school classes in art, sewing and pottery, in making useful articles for ex-service men or children in hospitals, gloom chasers play an important part of the Junior program in making the hospitalized men happy, these gloom chasers are bright colorful tissue paper flowers, dolls, nut cups, holders for cigarettes and many other articles to attract attention. The lap boards, flower vases, tuck-in pillows and ash trays are also part of this service. "The around the World serv-

ice" is one which the school children give through interschool correspondence with about fifty-eight countries of foreign lands, the exchange of portfolios, dolls dressed in the costumes of the country from which they are sent, the exchange of hand work and ideas, all give the children a clear view of what the young people of our country as well as of the foreign countries are accomplishing, which is an exchange of education and custom which brings about the international as well as national membership to the Junior Red Cross.

The Chicago Chapter Junior Red Cross includes Du Page county, Cook county and Lake county, with 532 schools enrolled in Junior membership.
