

**Board Takes More Time To Consider Beacon Plans**

Plans for an ornamental structure to be built around the new Kenilworth water tower were held over for further consideration at the meeting of the village board last Monday evening. The ornamental structure may take the form of a combined air beacon for aviators and a memorial to the Kenilworth men who died in the air service during the war, according to plans of a certain group, lead by Richard V. Murison, an architect and a resident of the village. It is planned to secure the co-operation of William P. MacCracken of Winnetka, newly appointed to the post of assistant secretary of commerce, in charge of commercial aviation, for the proposed beacon.

Mrs. Fred D. Breit, 422 Essex road, Kenilworth, entertained at luncheon and bridge Thursday, September 9.

**Many North Shore Girls Among N. K. E. C. Students**

Fifty-two young women from the north shore enrolled this week in the National Kindergarten and Elementary college for training as nursery school, kindergarten and elementary teachers.

Of this number, forty-eight enrolled as freshmen and have the distinction of being members, not only of the first class to enter the new building, but also of the largest entering class in the history of the college, as the enrollment shows an increase of forty per cent over that of last year.

Mr. and Mrs. Charles T. Moon, 1386 Asbury avenue, have returned from a two weeks' trip to South Waterford, Mo. Mr. and Mrs. Jacob Sander of Chicago, occupied their home in their absence.
