Builds New \$55,000 Home On Corner Property Here
 The northwest corner of Oak and Walnut streets, Winnetka, is being improved with a beautiful eight-room house of the French style of architecture, and on which work has just been started. The development is being made by P. W. Bradstreet, whose architect is S. S. Beman, Jr. The house is being built for the market, Mr. Bradstreet announces, and it is said the cost of the property will be around \$55,000.
 The site is one of the prettiest corners in Winnetka, having a frontage of 120 feet on Oak street and 140 feet on Walnut, being beautifully wooded and landscaped. The house will be of white stucco with brick corners. It will be an eight-room structure, with three bathrooms, a very large open or screened porch with arched doorways and possessing many special features. It will be situated overlooking the old home of Edwin Clark, the well known architect.
