

DANGER to COOLIDGE

Have you ever stopped to think that failure to vote, or voting and splitting your ballot on November 2nd may result in giving the Democrats control of the Senate next March, and thus defeat the president's program for constructive National legislation? Also it may result in electing a Democratic President in 1928. Every office, County, State and National, is important. A straight Republican vote next Tuesday by *all Republicans* will avoid this danger. Won't you please read our letter mailed to you October 29th giving the reasons why?

New Trier Regular Republican Club

(Not Inc.)
