

### New Trier Juniors Will Hold Progressive Dinner

A progressive dinner will be given by the junior class at New Trier, Friday, November 12 at 6:30. Dancing between courses is planned.

There will be six tables and six

courses. The boys are the progressive part of the party, for in adviser groups they move from table to table. A girl's adviser group is seated at each table with an empty seat between each two, and at the beginning of each new course the boys fill these seats. Many people probably have the idea that the boys will sit beside the girl they want,

but this is taken care of by the host. While the other boys are dancing, he moves the place cards to the next table.

### New Trier Grid Squad Prepares for Hard Games

Saturday, November 6, New Trier gridgers will meet Lake View at New Trier. Only a light workout was scheduled for this week. Coach Aschenbach emphasized offensive work, concentrating on a strong aerial attack. The pass work in last week's game was poor, and this has caused the coach to outline strenuous workouts along this line.

Nearly all of those on the sick list are recovering rapidly, with the exception of Sweet. Joe Palletti hurt his arm in the Whiting game but he will be in trim to face Lake View if it is necessary.

Coach Aschenbach will use this week's game to point his men for the game with Deerfield, which takes place a week from Saturday. Though Lake View is not considered very strong and has lost four straight games, its opponents have been among the best, and they will undoubtedly put up a battle against New Trier.

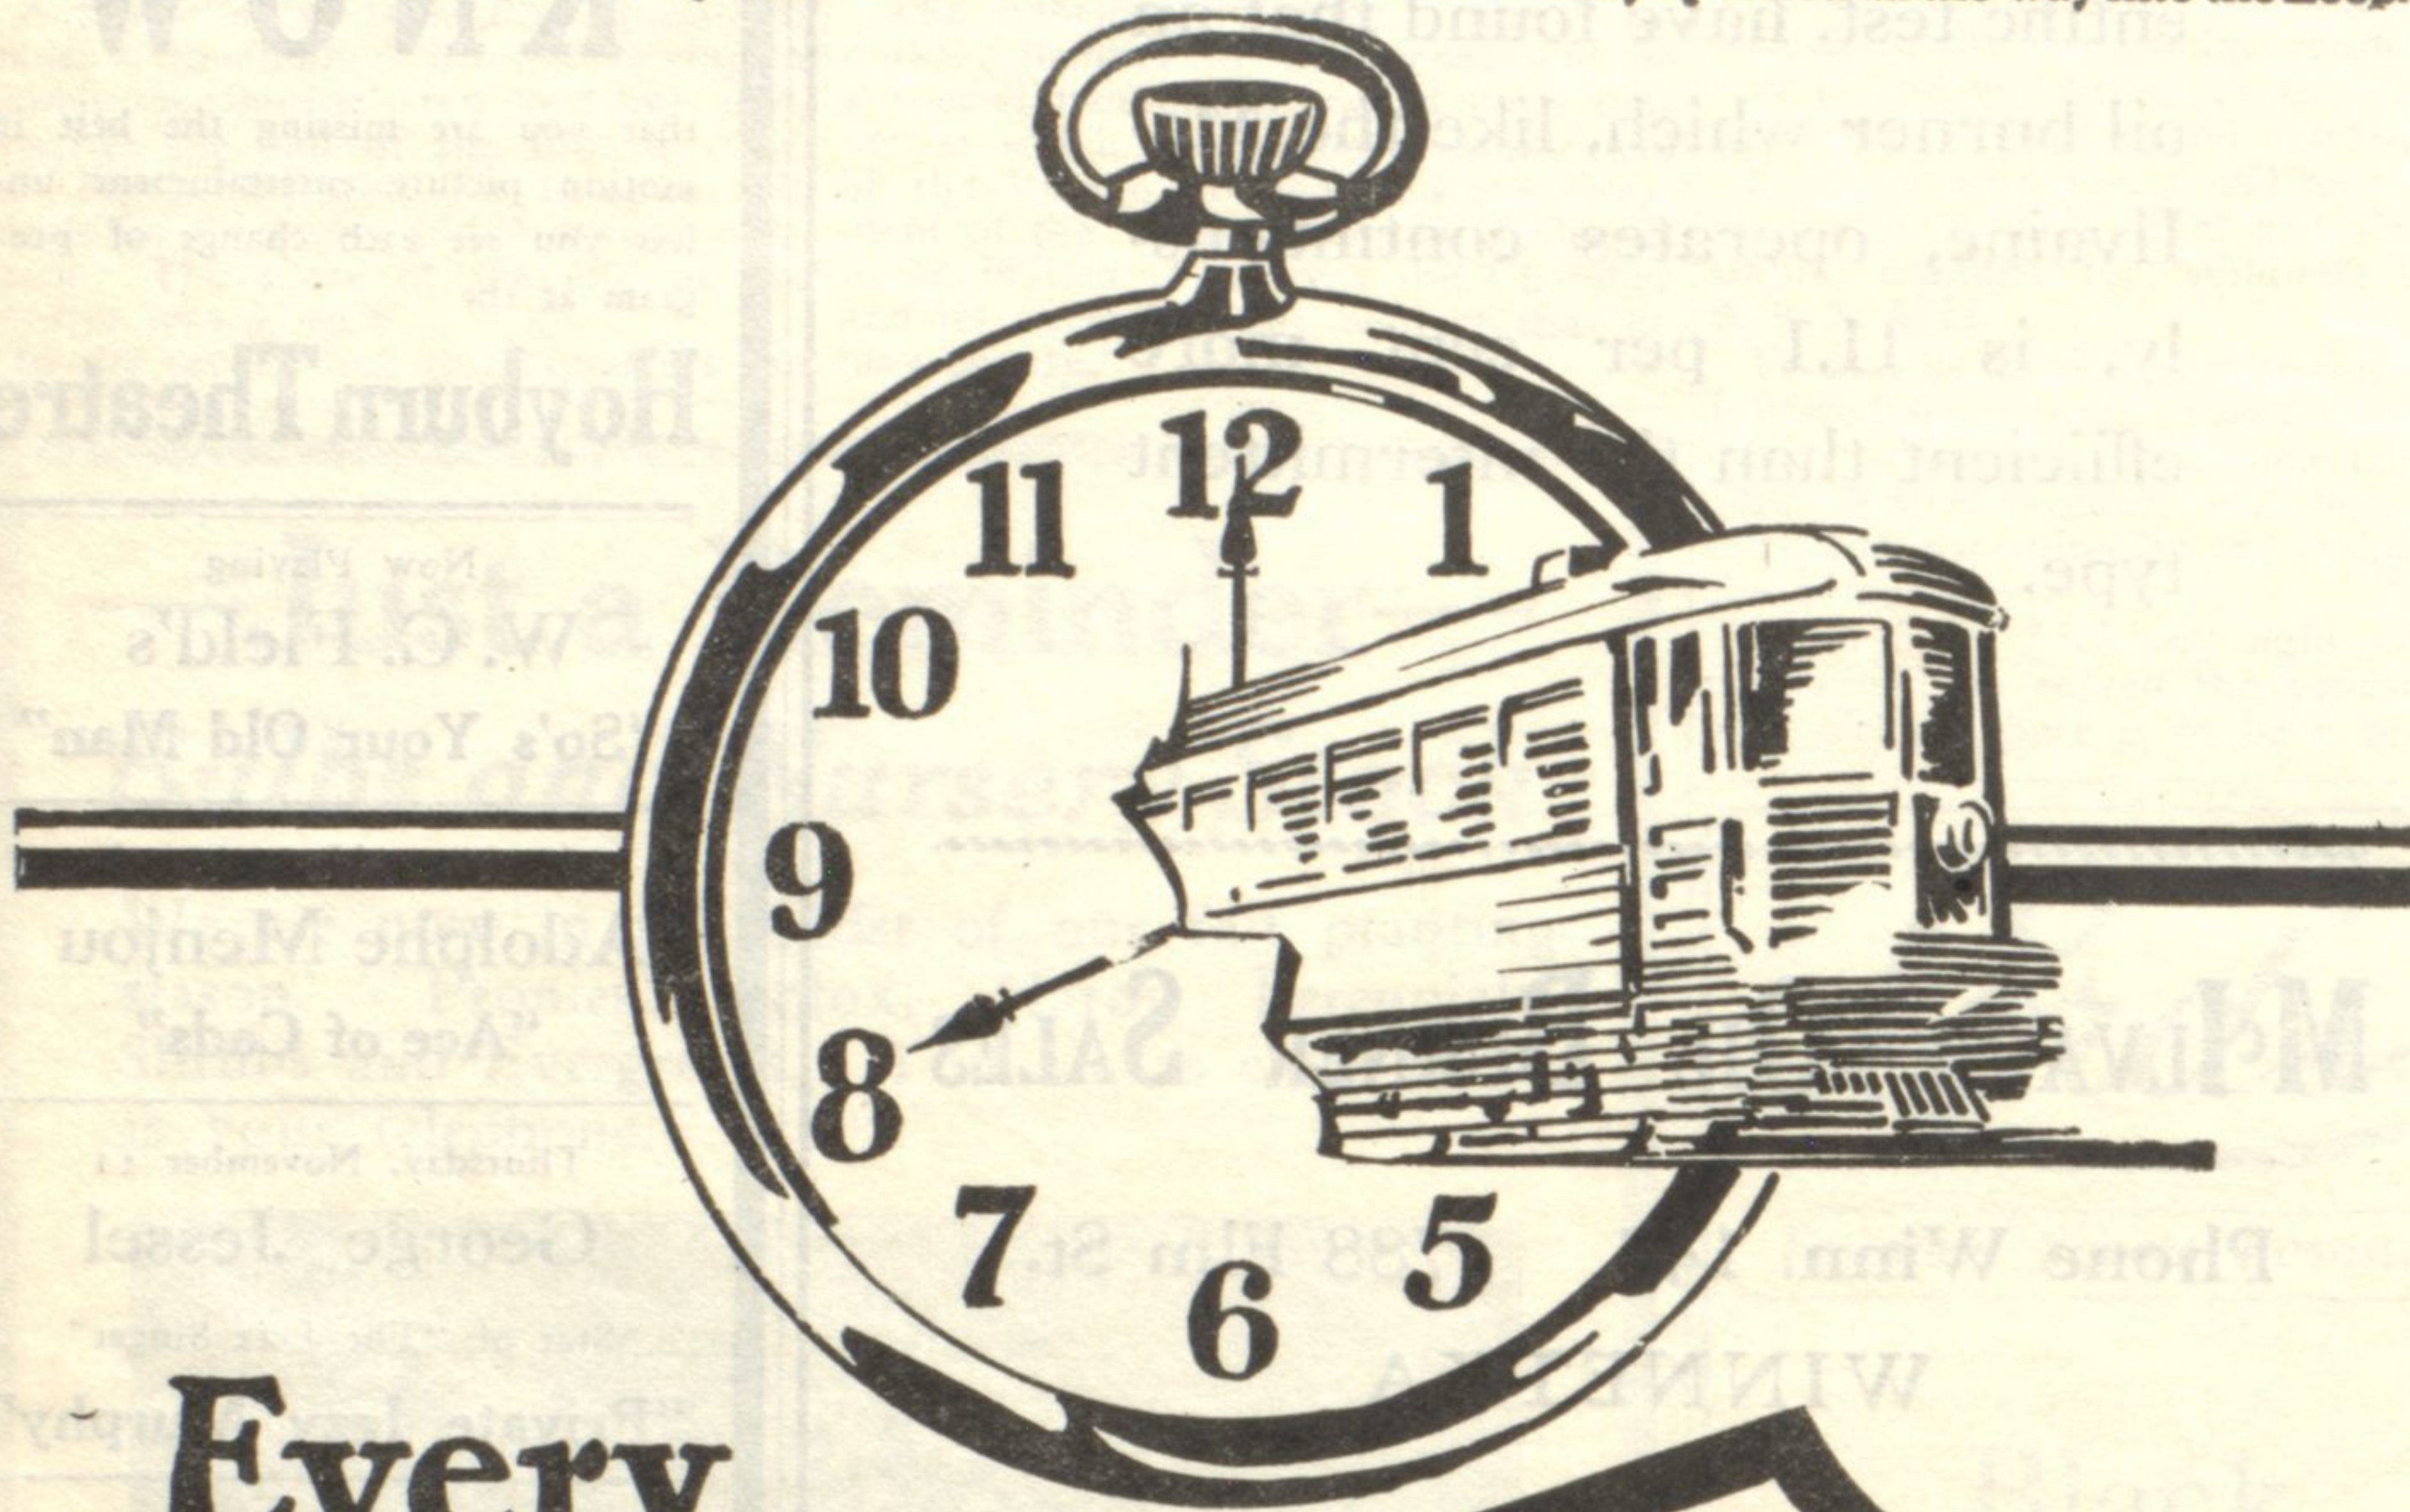

New Trier has the best team it has had in the last six years. Since 1920 New Trier teams have won only one or two games each year, while this season the squad has already won three, and prospects for winning several more before the season closes are very bright.

Injuries have forced Coach Aschenbach to make several changes in his lineup, and he figures on using Wieneke for Sweet at guard and Blow in place of Wieneke at tackle.

Illinois ranks third among the state in the growing of peaches, shipping during the season past 2,443 carloads of the fruit or more than four times as much as the preceding season.

During 1925, 66,909,359 tons of coal, valued at \$146,492,000, were produced by Illinois mines, says the Department of Commerce.

### Beauty Lies in Healthy EYES

It's not so much the size or color of the EYES that makes them beautiful. Rather, it's the glow which radiates from them. Unless kept always clean and healthy, EYES lack this alluring lustre.

Millions of women throughout the world promote EYE health and beauty with Murine. It cleanses EYES of irritating particles and keeps them clear and bright. Contains no belladonna.

Our illustrated books on "Eye Care" or "Eye Beauty" are FREE on request.
