Miss B's Products—

One may obtain as rare Christmas gifts the real oil essences of flowers at an amazingly low price. There is jasmine, rose, lilac, which smells like lilacs after rain, and a trailing arbutus that is too wonderful for prose. The same sisters who make these perfumes, also make a cold cream and astringent that is the real thing, and used before retiring, works wonders for the complexion.

New Chrysler Phaeton Has Storm Curtain Innovation

One of the outstanding features of the new Chrysler "70," which was recently announced, is the distinctive type of curtains on the Phaeton.

In addition to the ordinary method of using curtains with the top up, these curtains can be used with the top down—a distinctive Chrysler feature introduced in America on the new Model "70."

With the introduction of these new type curtains is noted the start of a new vogue in touring which, it is believed, will shortly sweep the country. This new vogue will enable thousands of owners to enjoy the invigorating fresh air in driving thru the country and city districts with the top down and curtains in place, a feature that will readily appeal to the American motorist.
