Our Children's Department

Never before has Rosenbaum's displayed such a wide variety of beautiful furniture gifts for children. Juvenile furniture is made in exact reproduction of full sized models—and it's sturdily built to stand the hard usage of the nursery or the playroom—Chairs of all types and various sizes range from straight back utility chairs to reed and wicker rockers of charming design—Tables of various descriptions and spinet and roll top desks will gladden the hearts of many an Evanston child.

Our doll furniture display is no less complete—there's a whole window full of doll buggies, as well as doll chairs and daintily decorated cane paneled basinettes—and the prices are surprisingly low!
