Radiola 20

The predominating features of this set are extreme sensitivity and greater selectivity than that obtained by the usual 5-tube circuit. Equipped with power tube UX-120. An extremely low price for a set that is **\$115** tried—tested and perfected.

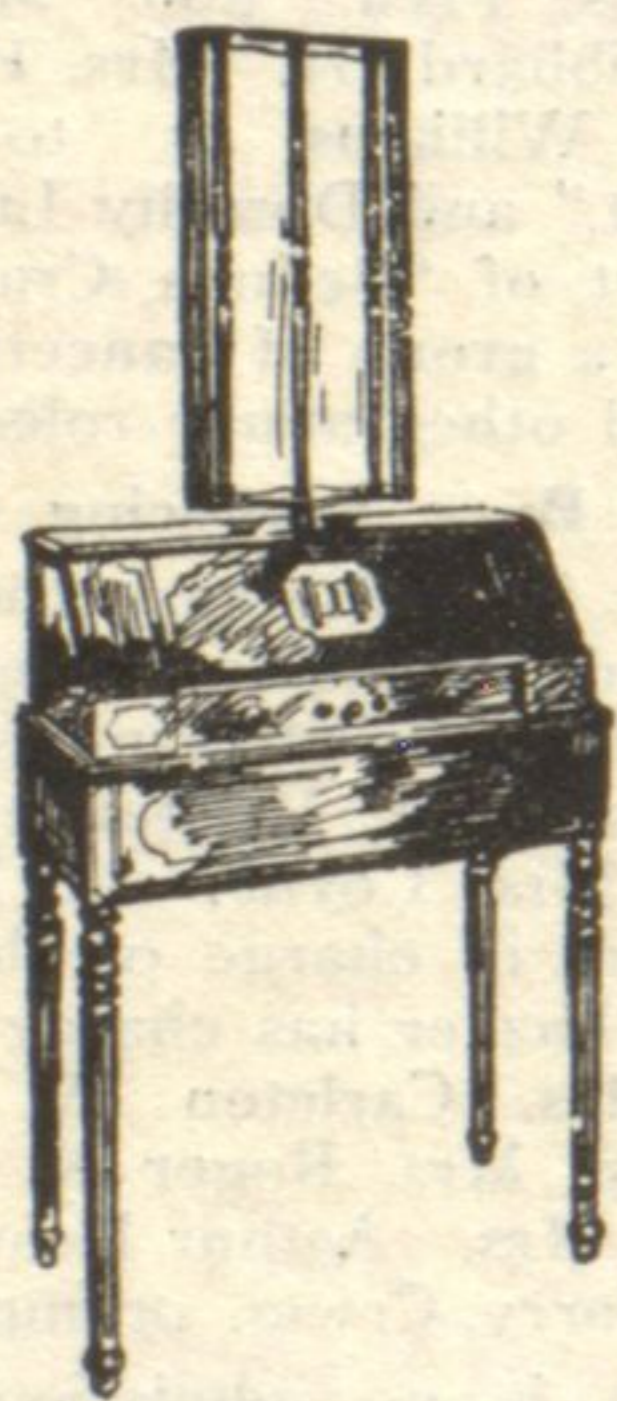

With 5 Radiotrons (Less accessories)

Radiola 25

Radiola 25 is the well-known 6-tube Super-Heterodyne circuit—known for its selectivity, range, tone and volume. Operates from self-contained dry batteries. No antenna out-doors is needed **\$165**

With 6 Radiotrons (Less accessories)

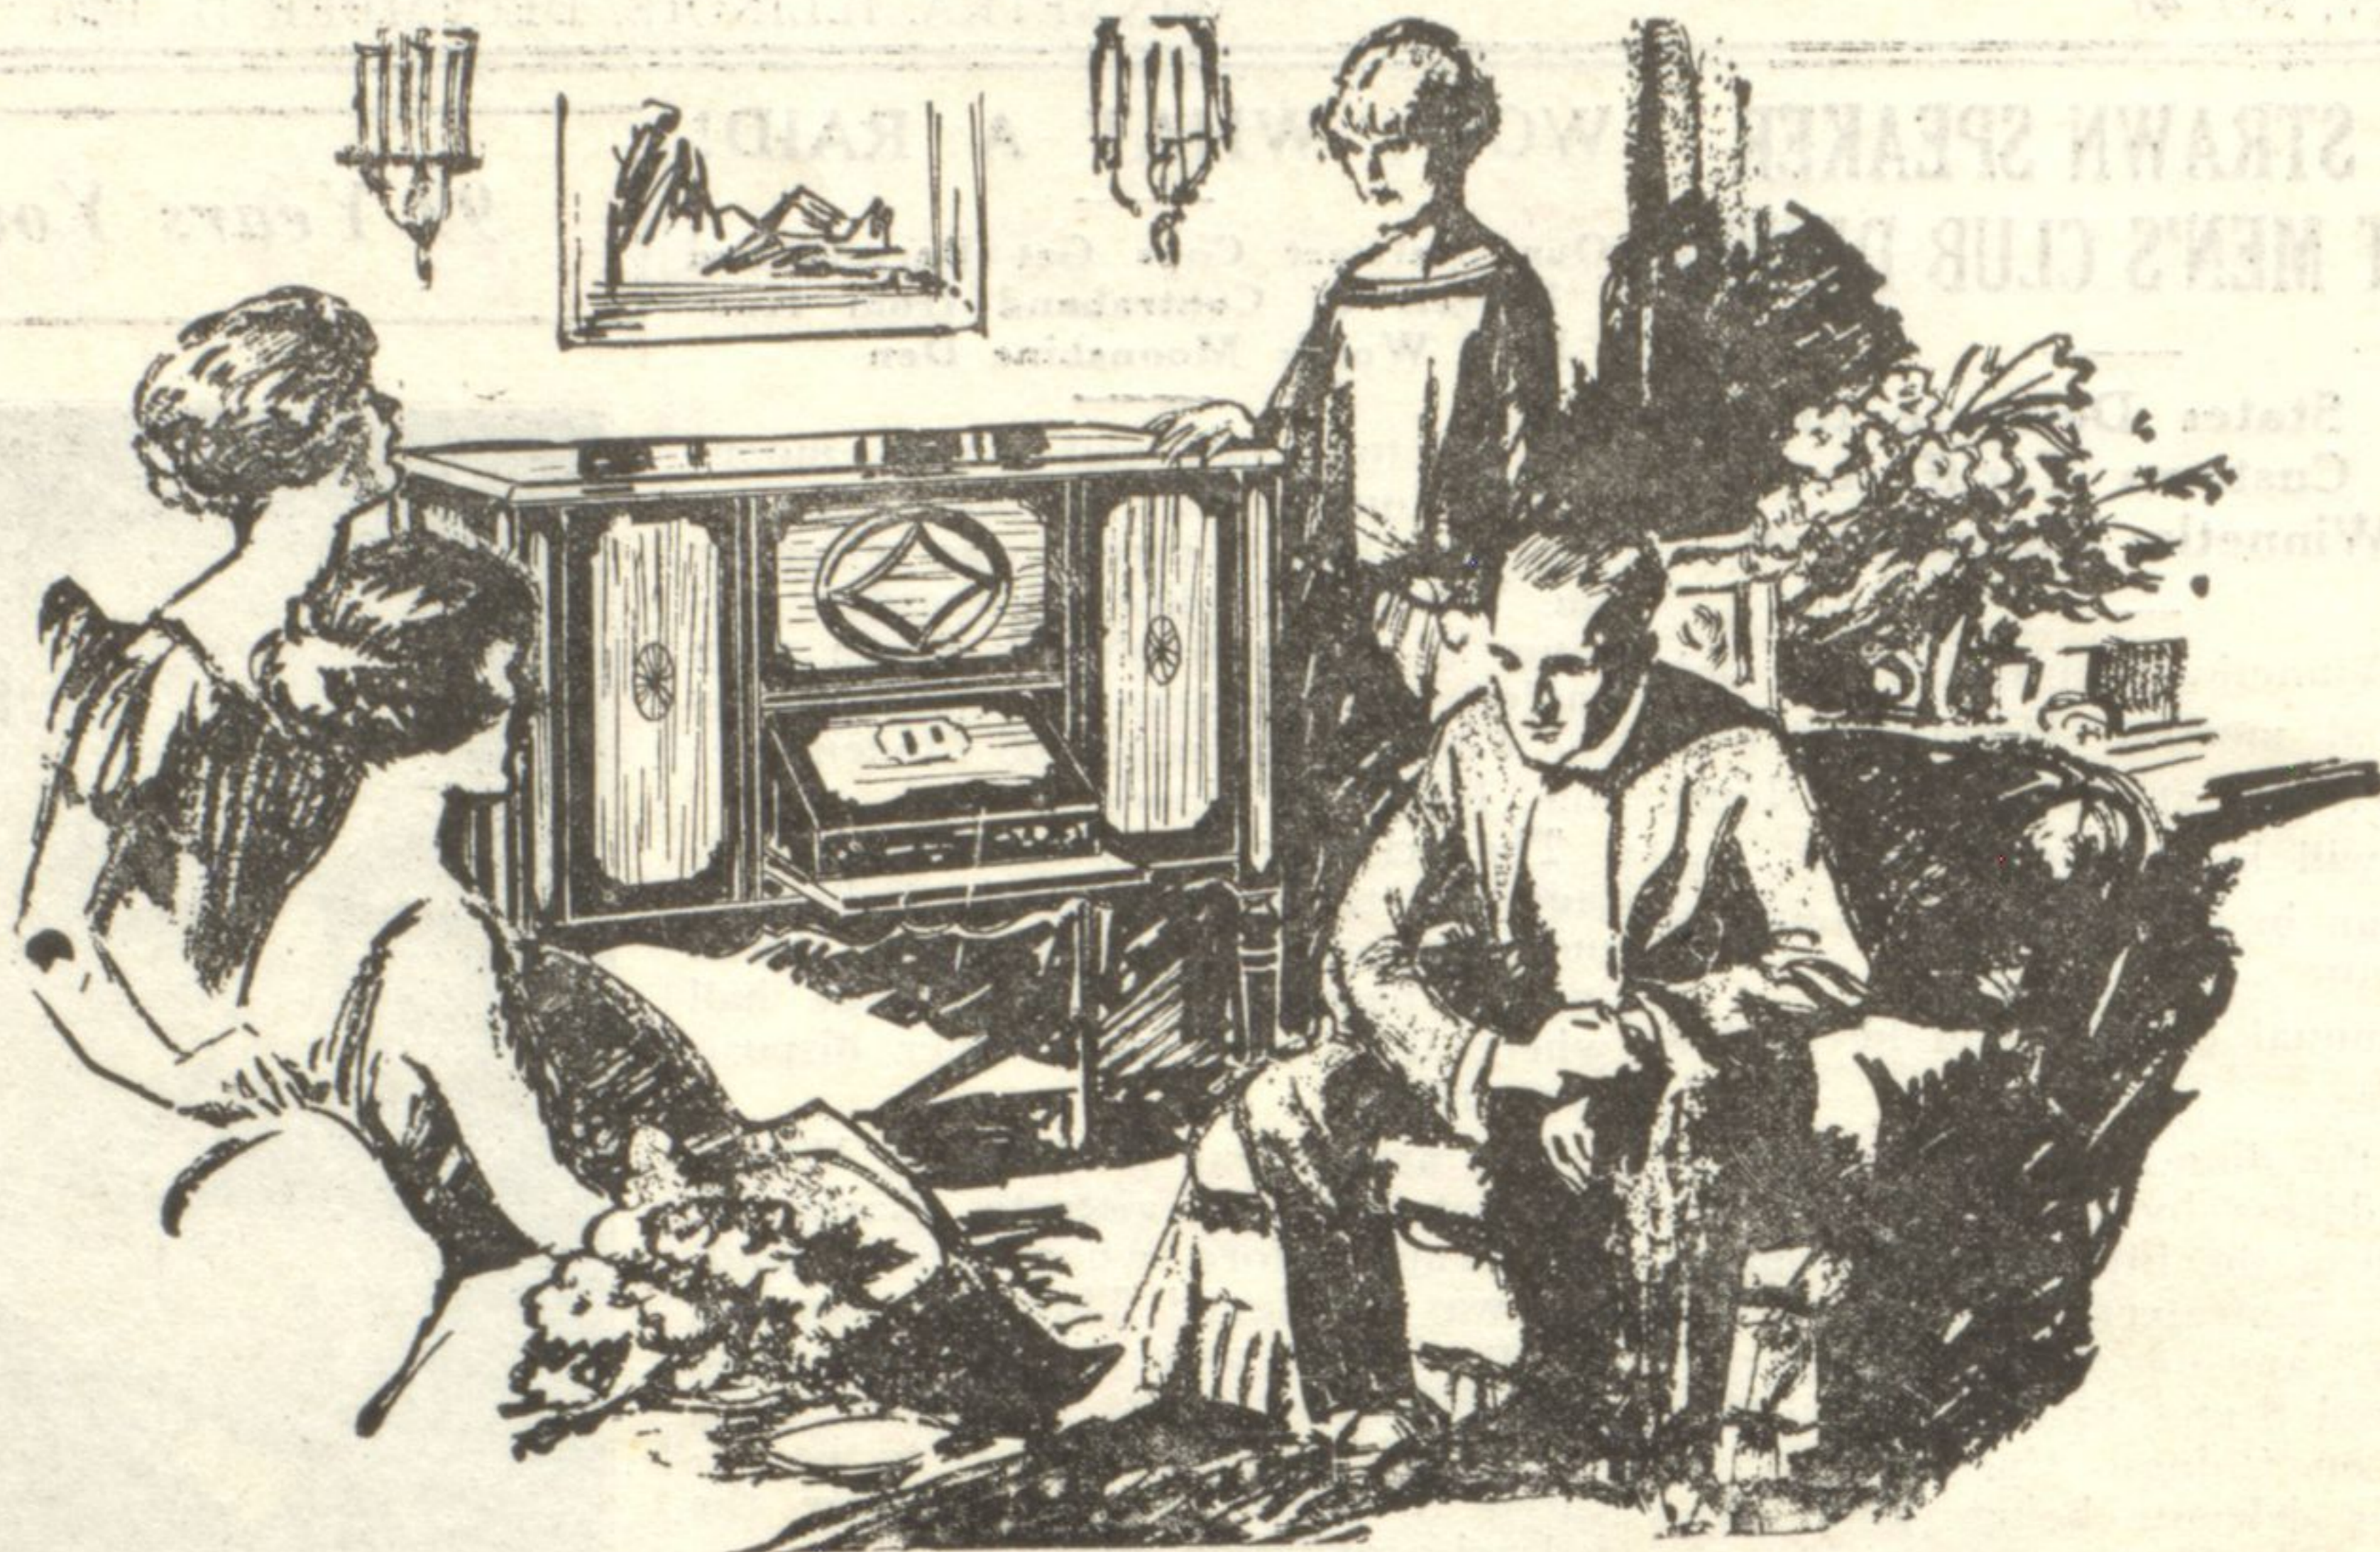

Radiola 28

This attractive Jeffersonian desk style cabinet contains the famous 8-tube Super-Heterodyne circuit. Justly famous for its sensitivity and selectivity it is especially adapted to conditions in Chicago. Operates from self-contained dry batteries... **\$260**

With 8 Radiotrons (Less accessories)

Operation from the electric light socket, eliminating batteries by means of a Philco "AB" Power Unit, for \$65 extra.

Will your home, too, listen in Christmas night — With a New RCA Radiola?

YOU buy happiness when you buy a Radiola. Happiness not just for Christmas but for all the days and nights to come.

There's no thrill like the one you get from the delightful, unexpected, living music that's in the air! And with no instrument can you catch it with more certainty, clearness, reality—than with a Radiola!

THE BRUNSWICK PANATROPE-RADIOLA

—a superb instrument
to make this a . . .
musical Christmas

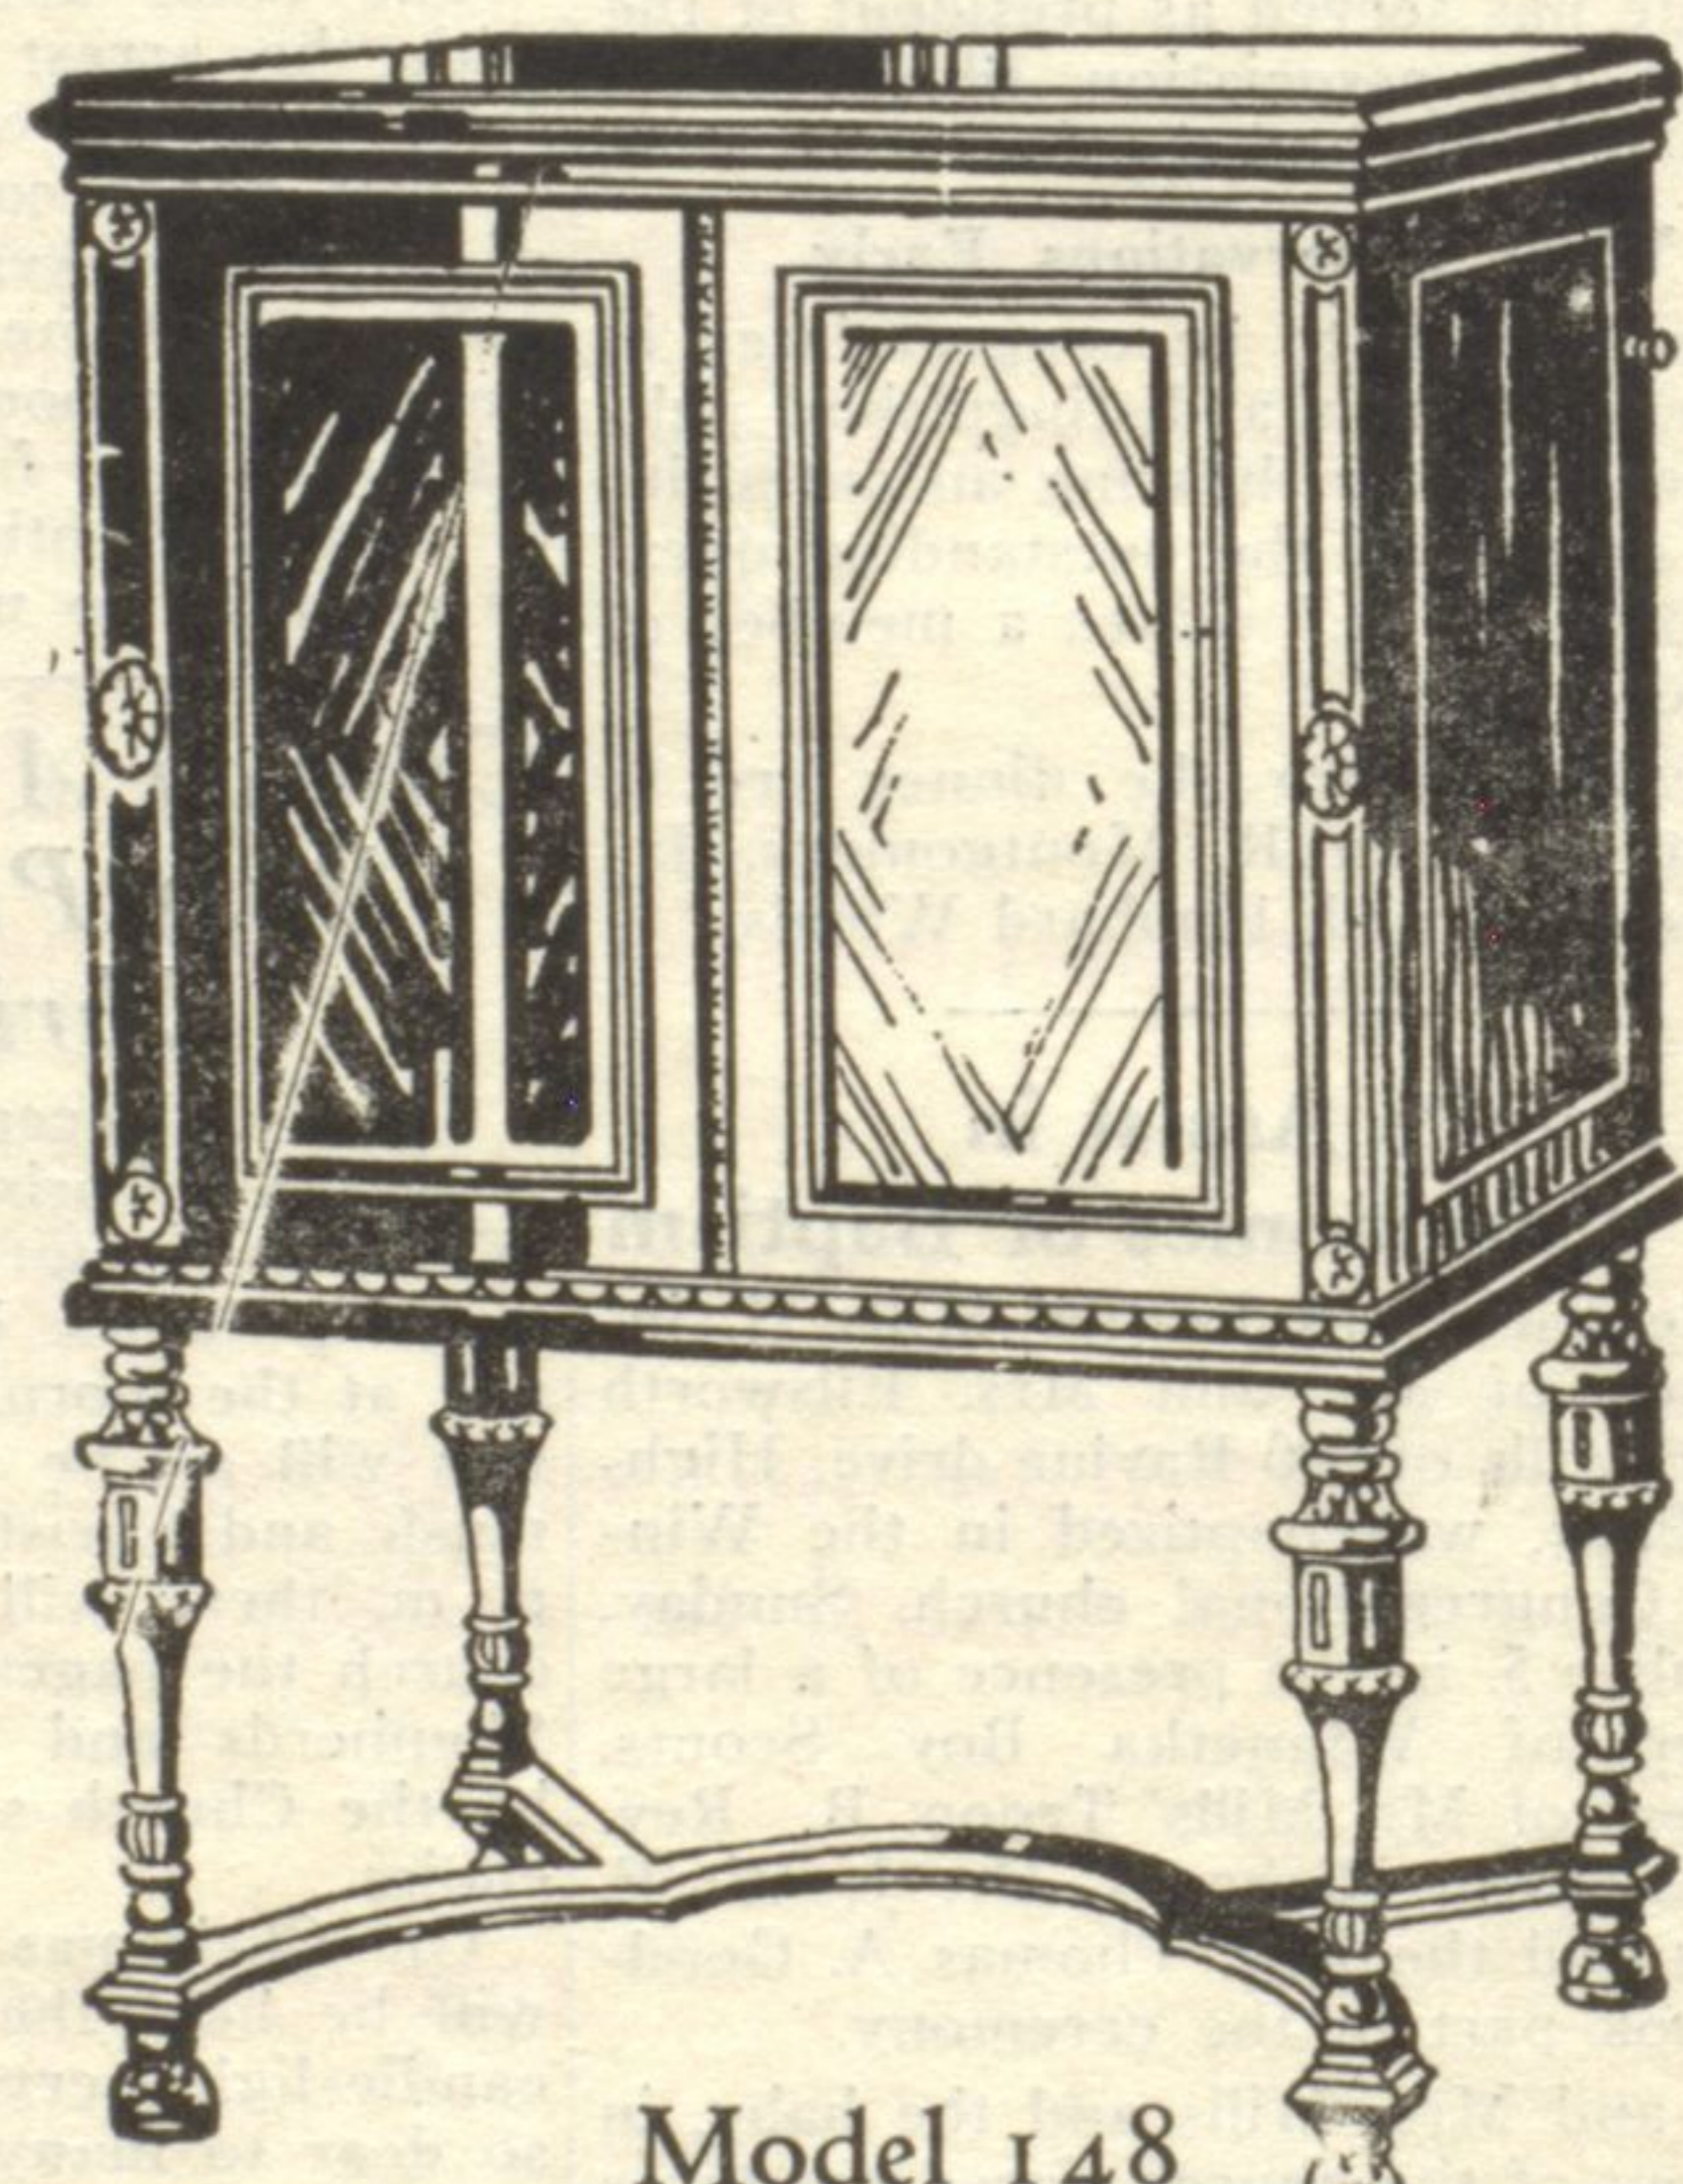

Electricity's magic brings to your home the best in record music and the best in radio entertainment—all in one beautiful cabinet. The Brunswick Panatropé reproduces by electricity music that was recorded electrically—the highest development in record music. The Radiola is the product of the RCA Laboratories—a radio receiving set that has been tried—tested and perfected. Combined in one instrument the world of music and entertainment is at your finger tips.

Easy to Own!

The Brunswick Plan of Ownership makes it easy to own a Radiola or a Panatropé-Radiola combination. Ask about our convenient terms.
