RETURN FOR HOLIDAYS

Among the Winnetka girls who are returning from Smith college for the Christmas holidays, are Miss Dorothy Dickinson, daughter of Mr. and Mrs. Frederick Dickinson, of 1228 Scott avenue, Miss Elizabeth Beard, daughter of Mrs. Mary Beard of Center street, Miss Mary Parker, daughter of Mr. and Mrs. Mortimer B. Parker of 577 Ash street, and Miss Francis Ranney, daughter of Mr. and Mrs. Royal W. Ranney of 1011 Oak street. These four students will return December 19, and spend the holidays with their parents.

POSTPONE SALE

The Daughters of the British Empire have postponed the sale they were planning to give December, until after the holidays. They held their regular meeting, Wednesday, December 8, at the home of Mrs. Samuel Goss, Sr., of Longwood avenue, Glencoe.

Mr. and Mrs. L. B. Sherman of 575 Sheridan road, returned Sunday, December 5, from the East, where they were visiting their son, Stuart, who is a student at Williams college. After spending a week with him they went to Boston and New York.

Women Voters Meet

Have you heard that the eight-hour day for women is to be included on the program for Congress in 1927 as a straight simple bill? Mrs. Charles Allen on Monday, December 6, spoke to the Citizenship school of the League of Women Voters on this bill, explaining that women work best on the shorter day schedule. "Women," she said, "are tremendous workers in industry and in the face of such effort and responsibility are not strong enough to stand the gaff."

Discussion brought out the fact that not only was the bill to protect the women from the driving employer but to protect her from herself. That each young woman is a potential mother preserving the human race makes it imperative that she be protected from wearing herself out voluntarily or otherwise, physically and mentally before such a time as her family duties should commence. That most women have home responsibilities outside of regular employment is an established fact, whereas men's duties generally cease with office hours. This bill applies chiefly to factory workers and to people working in laundries and restaurants.

An interesting counter statement was presented by Mrs. Gross T. Williams, who impressed upon the class the fact that most factories have modern equipment, a personnel service for employes, and the best of conditions under which to work. "Why discriminate?" asked Mrs. Williams, pointing out that skilled labor had just as long hours as unskilled labor. A most interesting discussion followed this viewpoint now favoring the eight-hour day and now again doubtful.

But with the report of Mrs. Hymen came more arguments. Members of the Y. W. C. A. and Women's Trade Union state that many of the girls they have interviewed are afraid to testify as to the desirability of the eight-hour day over the ten-hour day for fear of losing their positions. It is for the well-being of the race that this bill has been proposed. How shall we meet it?

Dr. and Mrs. Arthur H. Murdow of 680 Elm street, have returned from a visit of more than a week in Washington, D. C., and Philadelphia. While in Philadelphia they attended the Sesqui-Centennial exposition, returning to Winnetka Thursday, December 2.

Otis Taber of Holton, Kan., spent the last week with his daughter, Mrs. John N. VanderVries of 968 Pine street. Mr. Taber returned to his home the latter part of the week.

Make This an Electrical Christmas

Make a gift of an Electrical Appliance and you will lighten the labors of the recipient. Electricity is a faithful servant that will perform for years to come. This partial list shows a wide choice.

- Electric Irons
- Electric Heaters
- Maytag Washing Machines
- Mixers
- Waffle Irons
- Toasters
- Grills
- Curling Irons
- Hoover Vacuum Cleaners
- Boudoir Lamps
- Tree Lights
- Electric Trains
- and
- Everything that is Electrical
