DR. McELVEEN IN ENGLEWOOD

The Rev. William P. McElveen, former pastor of the First Congregational church of Evanston, has accepted the charge at the Pilgrim Congregational church of Englewood. The Rev. Mr. McElveen left Evanston in 1917 after serving as pastor of the First Congregational church for ten years. At the present time he is pastor of the Plymouth Congregational church of St. Paul, Minn. He will take over his new charge soon.

NEW WINNETKA HOME

Dr. C. E. Galloway of Evanston to Occupy Magnificent Residence Early Next Summer

One of the prettiest homes planned for the north shore the past season is the one which Dr. Charles Edwin Galloway, of Evanston is building on Private road, Winnetka, and which will be completed early next summer.

It is English Cotswold type of architecture, and will be built of Lanil stone, a hard Niagara lime stone, quarried near Milwaukee. Due to its rich permanent coloring it is becoming quite popular throughout the country. Some of the stone trim will be Indiana lime stone. Considerable of the trim about the windows will be of the same Lanil stone. The windows will be steel casements and in some instances will have stone sills inside. The roof will be of rough slate. There will be a touch of half timber and plaster, the same composing the second floor over the sun parlor, to the west.

The first floor will consist of an entrance hall with lavatory and cloak room, one on either side, a study done entirely in oak paneling with all shelves inclosed; living room and sun parlor with a double fireplace between; dining room, kitchen, butler's pantry and servants' sitting room and a two car garage built entirely fireproof and separated by automatic doors from the rest of the house. The boiler room and oil tank will be situated under the garage and will also be of the same fireproof construction.

The only entrance into the rear of the house will be in the servants' sitting room, doing away with an outside door into the kitchen. The basement will contain among other things a moderate sized ball room for the children. The children will also have a large play room on the third floor. The main stairway will be circular, approximately fourteen feet in diameter, affording an easy ascent.

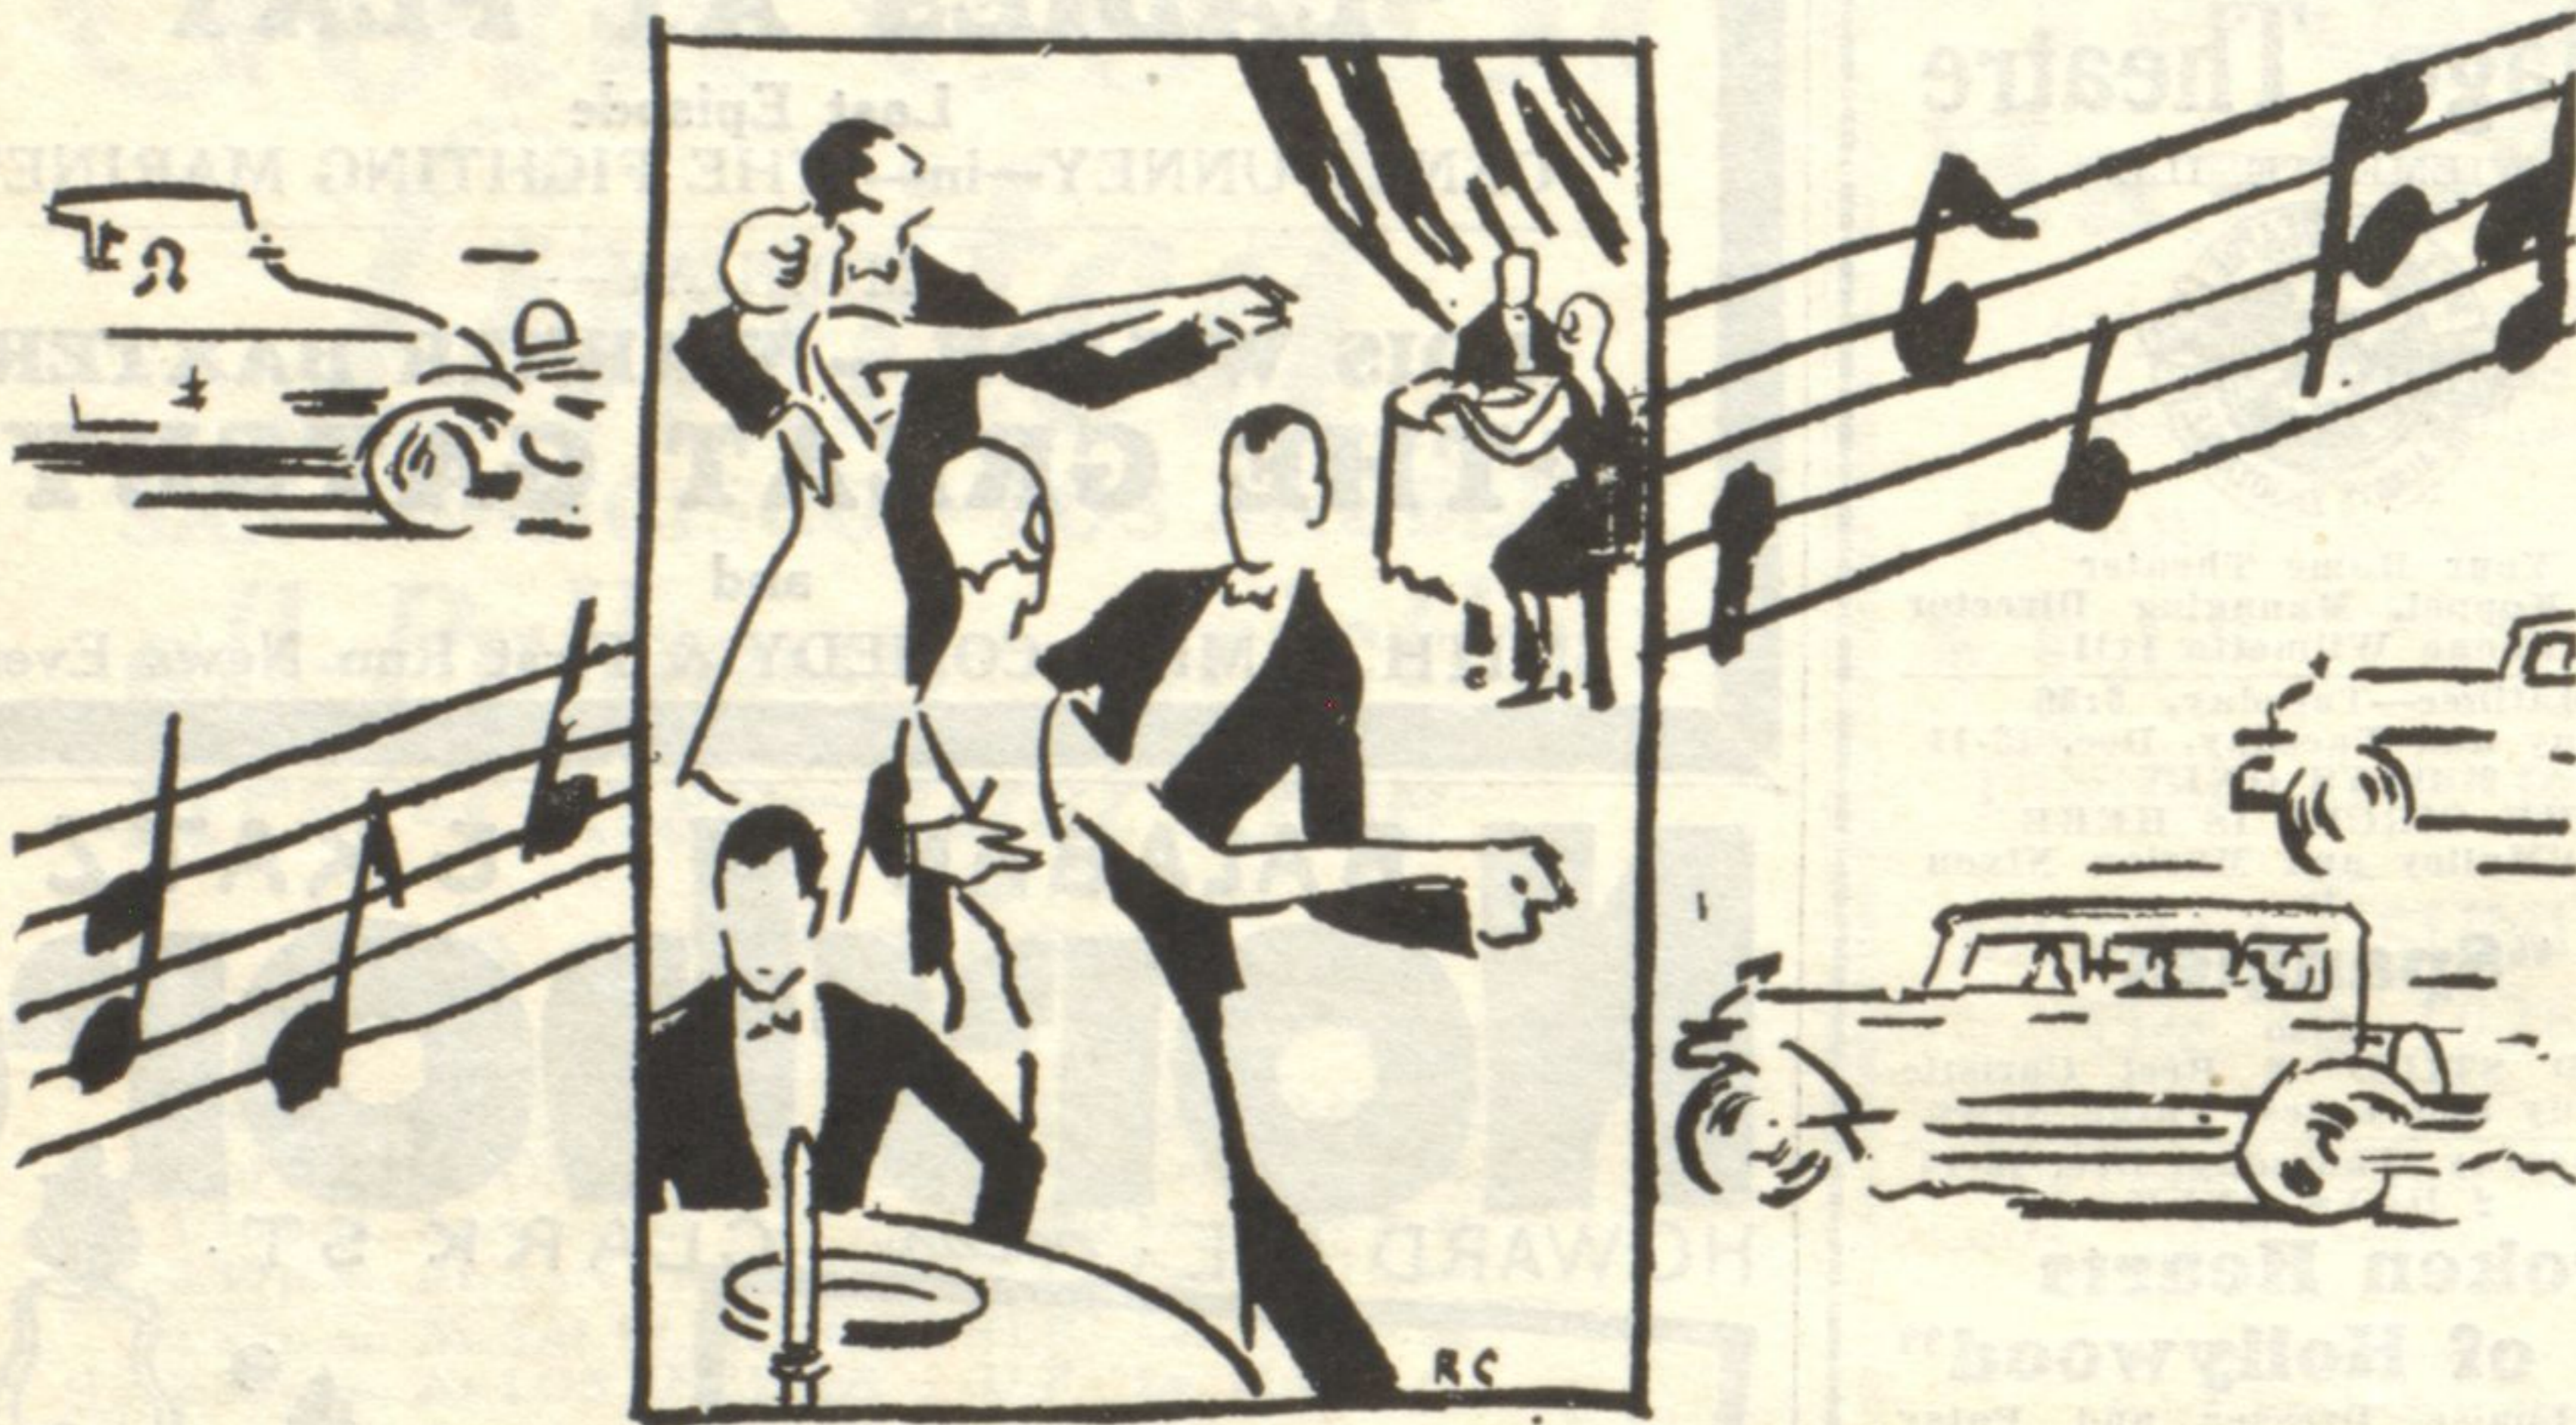

The second floor will consist of five master bedrooms and four baths. Part of the space over the garage on the second floor will be used as room and bath for a gardener and will be accessible only through an outside stairway on the east side of the house. The third floor will consist of two maids' rooms and bath, the necessary cedar closet, storage space and a large playroom on the west side.

Plank flooring will be used throughout the first floor. The dining room and sun parlor will open upon a terrace toward the south. The furnishings of the house will be in harmony with the English type of architecture.

BANK TO LAY CORNERSTONE

With brief, simple ceremonies the cornerstone of the new building of the State Bank and Trust company of Evanston will be laid Monday afternoon at 4:30. The stone will be placed in the pilaster at the southwest corner of the building. In it will be sealed a metal box containing current publications, lists of officers and directors of the bank, coins, the programs of the Army-Navy and the Chicago-Northwestern football games and various papers of contemporary interest. The ceremony will be followed by a brief program in the bank lobby presided over by F. J. Scheidenhelm, president. William A. Dyche, chairman of the board, Mayor Charles H. Bartlett, and President Walter Dill Scott will be among those called upon for brief talks. Officers, directors, stockholders and others who are interested in the growth of the bank will witness the ceremony and be guests at the meeting in the lobby.

Miss Jeannette Cherry, 422 Abbottsford road, returned to Kenilworth from her visit in Memphis, Tenn., Friday, December 3.
