

# Any Motor Will Run Better With a Pines Automatic

## “WINTERFRONT”

*Opens and Closes Automatically*

THE “Winterfront” is a simple and extremely effective device and represents to the automobile in cold weather what an overcoat represents to you. Gives driving comfort by keeping air under the hood warm, preventing cold from entering driving compartment.

The “Winterfront” completely covers and protects the radiator while it is cold, but automatically opens the radiator after temperature has passed 130° F.

Shuts out cold and holds in warmth. Gives summer running conditions under the hood at all times.

Used Winterfronts in Perfect Condition
1924 Buick . . . \$12
1924 Packard . . \$14
1924 Dodge . . . \$12
others at similar prices.

*There Is a Pines “Winterfront” to Fit Every Car*

*Prices Range from \$15.00 to \$30.00*
