**C. of C. Votes Approval
of Drainage for Skokie**

The Winnetka Chamber of Commerce at its meeting last Monday evening voted to go on record as supporting the movement to drain the Skokie, acting in conjunction with other north shore villages, until such a time as the Park board or some other body offer some better plan.

The drainage of Skokie is not a difficult engineering proposition, it was pointed out, and the estimated cost of the undertaking has been placed at something like a million dollars. One large open ditch starting up at Highland Park and extending on down through the Skokie area of Glencoe, Winnetka and Wilmette would accomplish the result desired.

Some of the many advantages which would result from this contemplated undertaking, was set forth in an article by George Park, a vice-president and also chairman of the civic committee of the Winnetka Chamber of Commerce, in the January 1 issue of THE WINNETKA TALK.

Mr. Park has long been interested in this project, and on Wednesday evening of this week, spoke before the meeting of Glencoe Chamber of Commerce on the subject.

CIRCLE MEETING

The Cherry Street circle will meet Tuesday, January 18, at 10 o'clock, for an all-day meeting, at the home of Mrs. E. Irving Belote of 1136 Oak street. Mrs. Ed J. Thompson will be assistant hostess.

**Rhythmics Develop
Balanced Growth,
Control, in Child**

By Carleton Washburne

The classes in rhythmics being held at Community House under Miss Mabel Katherine Pearse connect up so directly with the music work in the Winnetka schools and are of so much value to the children that I am taking this method of informing parents about them.

Miss Mabel Katherine Pearse is the leading exponent in the middle west of the Bentley System of Motor-Mental Rhythmics. This sounds somewhat terrifying as does her description which follows:

"The work aims at a balanced growth, bringing into muscular activities a quality of the spirit. Through the technique of relaxation, freedom from physical and nervous inhibitions is obtained. This results in the natural use of the body as an instrument for an unselfconscious expression of each individual."

To laymen, however, watching this work in rhythmics, and often to the musician, the results of the work seem somewhat simpler. Children are given a sense of rhythm in music, are given control over their bodies, and given a type of relaxation very much needed in these strenuous days.

The music work in the Winnetka Public schools makes considerable use of rhythmics, especially in the lower grades, and has done so for a number of years. Members of the music department in the schools have taken Miss Bentley's course and familiarized themselves with this system. It is therefore very fortunate from the standpoint of the schools that many children may have the opportunity of carrying the rhythm work further under Miss Pearse's competent direction.

FRIEND OF HOSPITAL

Mrs. James Greenebaum of 940 Cherry street, is one of the active north shore members of the Chicago Lying-in hospital and dispensary, which publishes a magazine called "Mothers' Aid." Mrs. Greenebaum has for many years been a member of this association, and has followed its history down to the present day, with the University of Chicago taking such an active interest in it.

**Why Have Electricity
If
You Haven't Got Appliances?**

WE HAVE THEM !

Whether you're wanting a Fuse or a Washer, or any appliance "in-between" we have them.

Lamps — Curling Irons — Waffle Irons — Grills — Washers — Ironets — Vacuum Cleaners — Etc.
