

DUPONT DUCO DEALERS

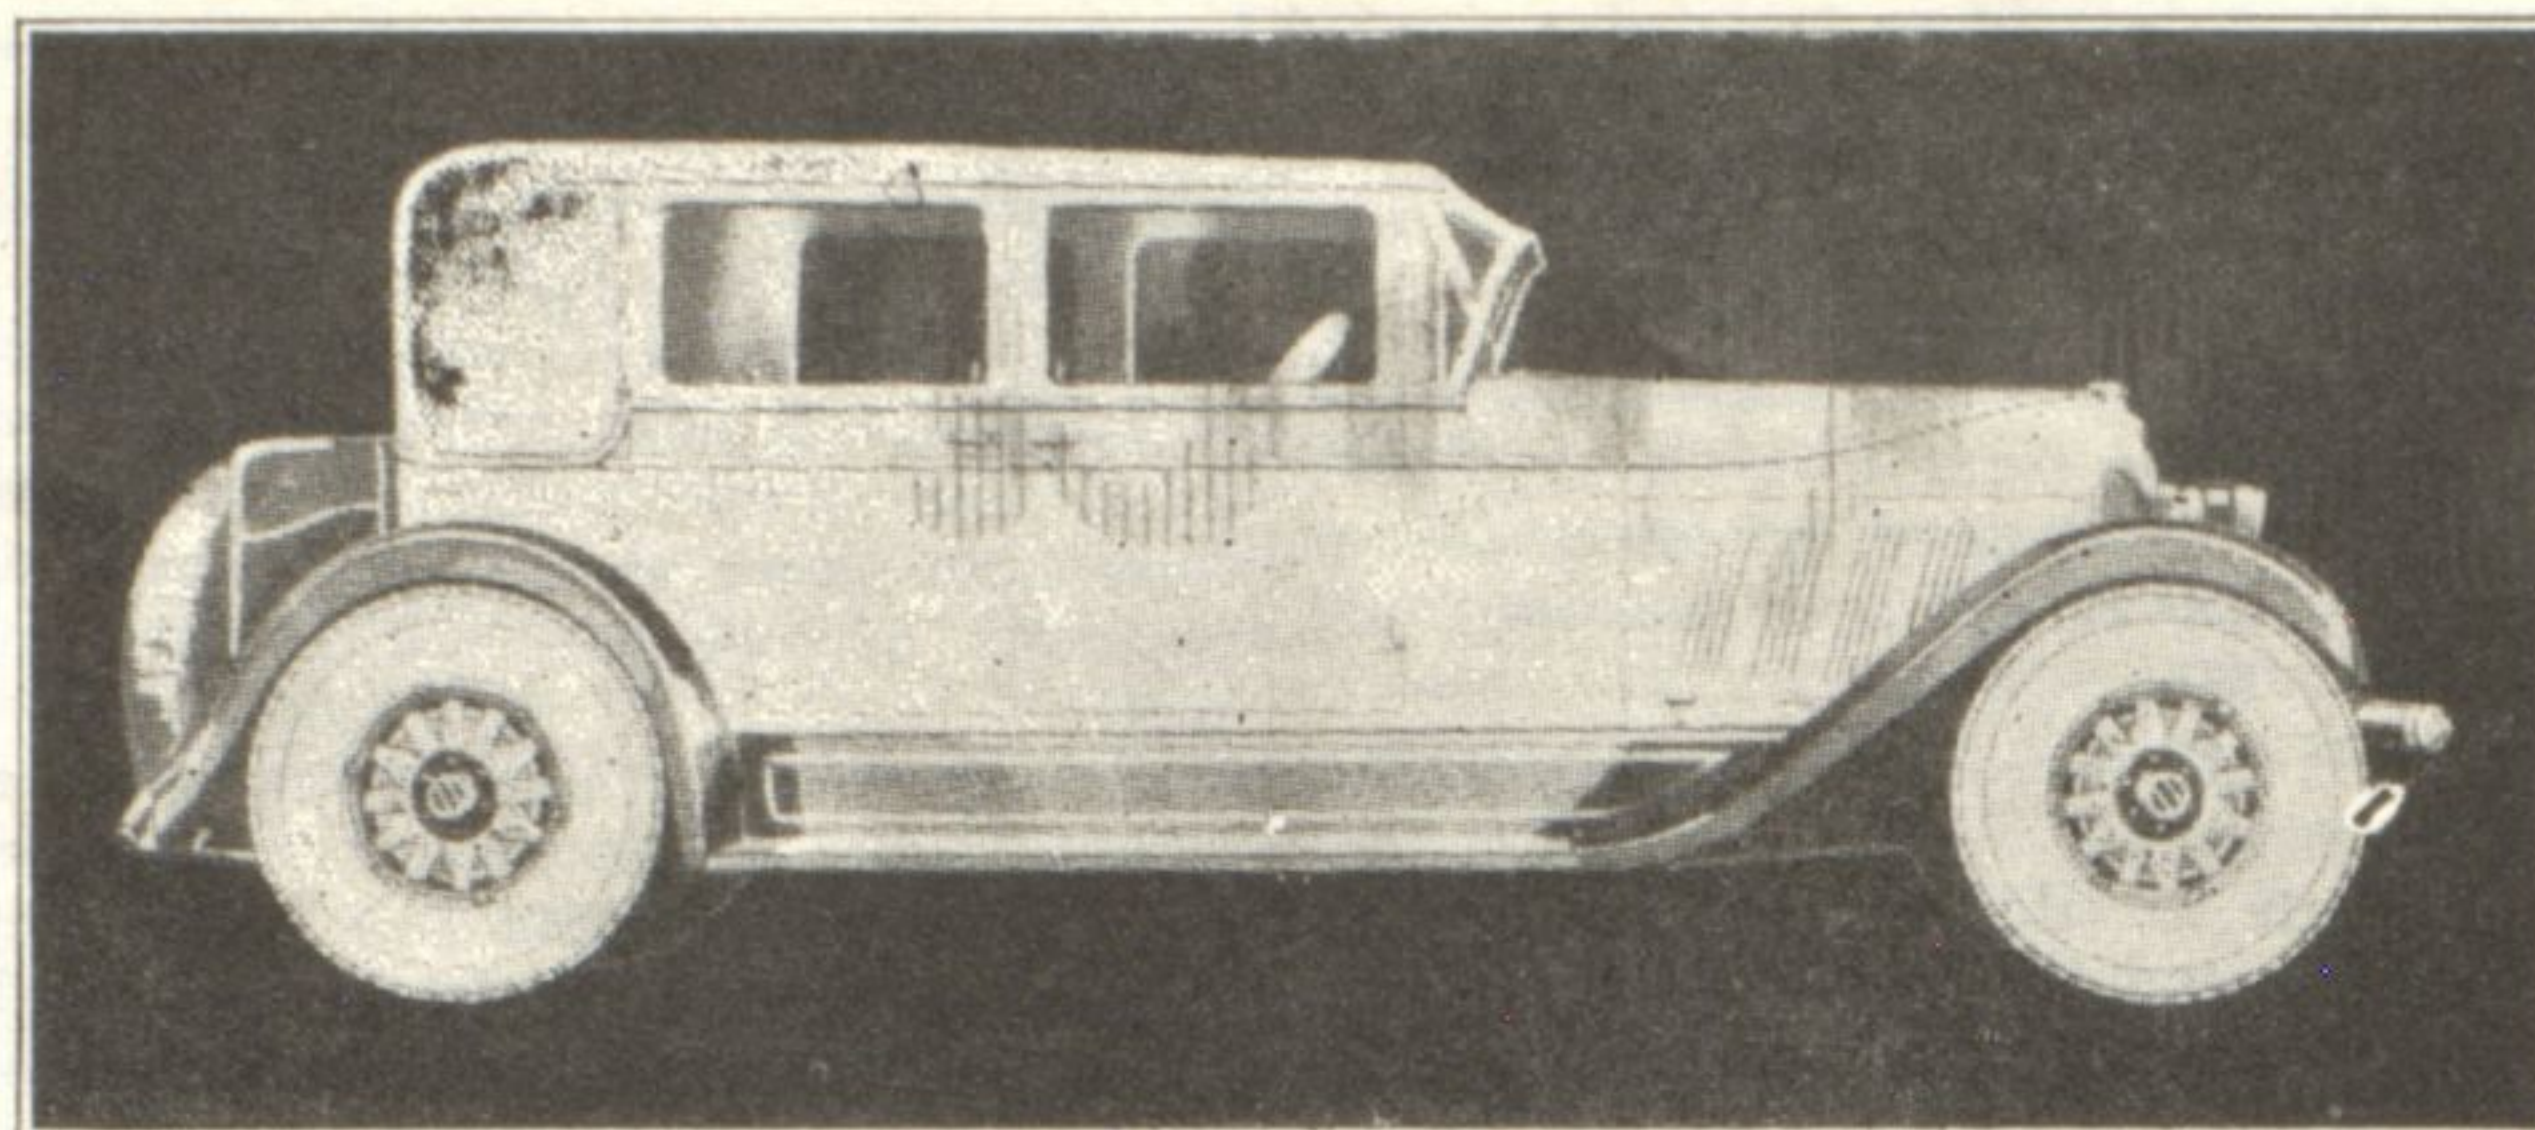

While the Evanston Auto Painting and Trimming company at 816 University place is the only body shop on the north shore handling all body work such as painting, trimming, glass, etc., they also claim the distinction of being authorized Dupont Duco dealers. V. W. Fleming, the owner, can be reached at Greenleaf 541.

The George E. Hiscott Automobile

Painting and Trimming company at 1022 Emerson street, Evanston, makes a specialty of lacquer finishing. Mr. Hiscott has been in business in Evanston for 20 years, 16 of which were spent at his present address.

The total production of automobiles in the United States for the year 1926 was 3,972,072, the highest in the history of the motor car.

Auburn Attracts Buyers

Drivers of the new Auburn Straight 8 will be among the most satisfied car owners in the country this year. This new model with its 125-inch wheel bases is one of the leaders of Auburn's complete line of motor cars which are sold locally by the J. R. Bondurant Motor Sales, 1027 Davis st., Evanston.

Never too Cold!

Graham Brothers Trucks start easily in the coldest weather.

The closed cabs are built for driver comfort, too—and winter makes driver comfort an increasingly important factor in dependable trucking service.

Graham Brothers Trucks are easy to start and easy to handle, in traffic or on the highway. They have ample power for all requirements.

The proof of their exceptional value in all seasons is their steadily mounting sales.

1-TON CHASSIS (G-Boy) \$938

1 1/2-TON CHASSIS \$1475

2-TON CHASSIS \$1505

Delivered

Graham Brothers Trucks, with Dodge Brothers 1/4-Ton Commercial Cars, meet 91% of all hauling requirements.

Chevrolet Announces Most Beautiful Line of Cars in History

Surpassing all its former achievements as the world's largest manufacturer of three-speed cars, the Chevrolet Motor company announces an entirely new line of automobiles, heralded as the most beautiful in Chevrolet history.

The new cars are mechanically finer, entirely new in body lines, smarter in appearance, complete in equipment and outstanding in the display of colors, says Fred T. Richardson, Jr., of Richardson's garage, local Chevrolet dealers. Seven models, five closed and two open cars, comprise the line. One model, a rakish, beautiful sport cabriolet, has been added.

Some of the standard features on the new models are as follows—AC air cleaner, AC oil filter, balloon tires, bullet-type head-lamps and cowl lamps, newly designed radiator shell, one-piece full-crown fenders, heavier running boards, larger steering wheel, new instrument panel, new tire carrier assembly and co-incidental ignition and steering lock.

Beauty and refinement has been stressed in the design. Appointments have been catered to with a thoroughness that promises to please the most

fastidious motorist. Succeeding the smoothest Chevrolet, the new line has been built to establish a new-standard in the low price field.

All closed bodies are by Fisher and finished in Duco. The seven models are finished in five smart color combinations, with contrasting color stripes emphasizing the body bead. "Fish-tailing," a crowning achievement of the designer's art, hitherto employed only on the more expensive cars, lends a striking appearance to the rear deck of the coupe, sport cabriolet and roadster. A reduction in the 'over-all' height of the cars without sacrificing head room, makes for a more racy contour.

The radiator of polished airplane metal follows a new design. It is longer and larger and with the centrifugal water pump provides for high cooling efficiency. Sweeping one-piece full crown fenders are topped off by bullet-type head-lamps with cowl-lamps to match.

Steel disc wheels in colors are standard equipment on all models. Natural wood wheels are optional at a small additional cost.

The Chevrolet motor has been made even smoother and its efficiency further improved by the use of a new and improved oil pump. Another advance on this year's car is the use of an AC air cleaner, which supplies clean filtered air to the carburetor and prevents dirt and grit from getting inside of the motor and damaging moving parts.

A new and larger steering wheel 17 inches in diameter provides for easier handling and adds to the appearance of the car as well.

On closed models new and narrower windshield pillars greatly improve the vision permitting a commanding view of the road.

Over 20,799,151 Autos in the World; U. S. Leads

On January 1, 1926 there were in operation throughout the world 20,799,151 passenger automobiles, 181,573 motorbuses and 3,454,939 trucks. It is estimated that over \$3,800,000,000 was paid for new motor vehicles. The United States, it is said, is using over three and one half times as many automobiles as all the rest of the world.

Since January of two years ago the number of different makes of cars in production has declined from 77 to 53.

NEW HUP AGENCY

Willys Gamron and Morris Reicheld have secured the Hupmobile agency for this area and will operate under the name of Ridge Motor Sales Co., Inc. They have negotiated a lease through Hokanson & Jenks, Inc. for the automobile salesroom and service station in the building in Evanston.
