

High School in Second Semester With New Courses

Registration for the second semester at New Trier High school was completed last week. About twenty freshmen were received from the mid-year graduating class of the Skokie school, Winnetka. In addition to this, fifteen pupils had been enrolled during the first term, bringing the total to 1,475 students who started second semester class work Monday.

Several new courses have been added that were not offered during the first semester, it was announced, among them being courses in dramatics, college algebra, solid geometry, Latin-American history, household chemistry and civics. A class in fancy cooking, never before offered at the school, has been added because of the heavy demand for it.

In addition to these, special courses covering regular work have been added for the benefit of students desiring to prepare for college board examinations. About forty students have enrolled in these classes, it is said.
