# Things Like This Don't "Just Happen"

Chrysler's phenomenal rise in the industry (from 27th to 4th place in three short years) is no commonplace happening.

Chrysler didn't put themselves in this position. Public opinion expressed in the purchasing of this large number of cars placed Chrysler in this enviable position. More and more North Shore people are finding out every day that the performance, comfort, beauty and economy they most desire in a motor car are best expressed in a Chrysler.

And of equal importance they find a Service Department right here at home (1840 Ridge Avenue) that renders prompt, courteous and efficient service to a degree they have never before experienced.

We have more than \$50,000 invested for your satisfaction and convenience.
