A New Body Style Reigns in America *Created by Nash*

Revealing an alluring French-type rear contour, this ultra-new and arrestingly original body design has now entirely changed American ideas of motor car style.

First exemplified by the new *Ambassador* and *Cavalier* models this unique body conception was immediately hailed as the most important creative achievement in the history of American enclosed car craftsmanship.

Today this inimitably distinguished body mode is available in the new *Special Sedans* just introduced on both the *Special Six* and *Advanced Six* chassis at prices of wider popular appeal.

The *Special Sedan* on the *Special Six*

chassis, colorfully finished in an exquisite new blue tone is pictured above.

The extreme luxury of its interior is emphasized by the gray tufted genuine Chase Velmo Mohair Velvet upholstery, real walnut steering wheel, and select hardware in chaste pattern.

All inside window moldings and door panels are of walnut finish, as is the instrument board and the crowned panel above the instrument board.

The same fittings and appointments grace the larger *Advanced Six* model and both are powered with the big Nash 7-bearing motor — the world's smoothest type. 4-wheel brakes and 5 disc wheels are standard equipment.
