Skokie Printing Pupils Purchase New School Press

A new press with a capacity of 12 by 18 inches has been added to the equipment of the printing department of the Skokie school, replacing an antiquated press of much smaller size. For some time the need for this equipment has been felt, especially in the publication of "The Journalist," the Winnetka school paper. Because of the smallness of the old press capacity, considerable difficulty was encountered in running off the work and much needless work was necessitated.

The new equipment has been purchased by the members of the printing classes and is to be paid for by the income derived from advertising in "The Journalist" and by special printing work taken on from time to time. At the present rate of income, they expect to have it paid for within a one year period.

The old press, complete in every detail and in excellent condition, was not turned in on the new one, as is generally the case, but is being held for sale at the trade-in price, to any boy who wishes to become the proud owner of a printing equipment.
