Glencoe Village Board Pledges Support in Plans to Drain Skokie

The proposed drainage of the Skokie valley which received such an impetus at the joint meeting of citizens of north shore villages at the Skokie country club, Friday evening of last week, was given additional support by the Glencoe Village board at its meeting the following Monday evening.

At this time the Board went on record as being in hearty accord with the movement and ready and willing to do whatever it can to further it. This attitude was expressed in the following resolution, adopted by a unanimous vote of the trustees:

"Whereas, the Skokie valley has long been a serious menace to the health and happiness of the People of Glencoe, because of the pollution of the surface water with sewage spread over the marshes by the drainage ditches of Lake county; and

"Whereas, this condition affords a breeding place for myriads of mosquitoes that make life miserable for the people of our community during the summer months and tend to spread contagion throughout this district; and

"Whereas, it has been brought to the attention of the Board of Trustees of the village of Glencoe that a group of representative citizens from the various villages of the north shore are about to petition the Sanitary District of Chicago to grant relief by the construction of a suitable drainage ditch throughout the Skokie valley; and

"Whereas, it is further proposed that if the Sanitary District of Chicago fail to grant the necessary relief, then a drainage district or districts will be formed for the express purpose of rendering this service to the villages along the north shore;

"Therefore, be it Resolved, by the Board of Trustees of the village of Glencoe that we do endorse the proposition of adequate drainage for the Skokie valley, and pledge our co-operation to this end."

The program was as follows: two movements from Bach, three selections by Duetini Godard, "Movement Musicale" by Schubert and "The Mill" by Roff.
