

The Caravans Have Arrived!

FOR WEEKS a rich cargo has been on its way, and now its luxurious array of treasure will make a gala event to mark the opening of our newly completed rug display room and plant at 1107 Greenleaf Avenue, Wilmette, on Wednesday, March 16.

A Rug Sale of Importance

Gems of the Orient's finest weaving art—great room size rugs from China, rugs of all sizes and prices from Turkey, Persia, Afghanistan, Baluchistan, Turkestan . . . Too many to mention individually, but all of them so advantageously priced that selection is most opportune. Just to see the beauty of these rugs will well repay you for your visit.

A Modern New Cleaning Plant

With the completion of our new cleaning and repairing plant, the reasons for preferring Kashian Brothers for your work are more numerous than before. A new fan-drying process improves on the qualities of outdoor drying, which it simulates, leaving the weave soft and beautiful. On our cleaning floor, there is room to handle the largest rug flat without rolling.

Your fine floor coverings are gems of value. Our plant is a veritable vault for their safe keeping, closely meshed with electric alarm wires, a feature recommended and approved by the board of underwriters. Furthermore, your rugs are insured while in our care.

20% *DISCOUNT on all Cleaning during March, to celebrate our 18th Business Anniversary.*

Help us celebrate our opening day, when we shall hold open house to all our North Shore friends whose patronage made possible the building of this modern new establishment.
