### THE CANTON CLOTHES DRYERS

large enough for the largest apartment building or in-  
stitution.

*Dries — Beaches — Sterilizes;* only pure radiated  
heat comes in contact with the clothes... drying  
them equal to the sun's rays and eliminates the ne-  
cessity of hanging  
your clothes in the  
open to catch dirt  
and soot that is in  
the air; no freez-  
ing in the cold and  
no chance for the  
wind to tear the  
clothes as they  
hang on the line  
in the open.

ing machine that *washes, rinses* and *dries*. Dries ready for  
the line without a wringer. New water circulating system  
handles all the water. Returns all soap suds to the wash  
tub; returns rinse and blue water from drier to rinse and  
blue tubs, and when through washing, it empties itself.
