How Your Shirts Are Ironed on Special Machines

Haven't you often wondered how the laundry is able to iron shirts so smoothly and nicely?

The answer is to be found in the special shirt ironing equipment pictured above. We call this a shirt unit because it consists of five machines—a neckband press, two cuff presses, a bosom press and a body press.

It is this equipment which enables us to iron so attractively for you at these difficult places, like neckband, shoulder, sleeve, and to give that comfortable yet dressy bosom.

It is the reason, too, why you can be sure of most perfect service when you send linen to the laundry. Have us call for that next bundle.
