DRAINED *and*
FLUSHED *with the*
NEW "FRY
FLUSHER"

Now at the change of seasons the grease in your transmission and differential should be changed for the Summer grade. This is done most efficiently with the Our New Fry Flusher. The old dirty, gritty grease, filled with damaging steel chips, is forced from the gears with a kerosene spray and every particle removed from the gear cases with the vacuum nozzle. Then the new fresh lubricant is put in, which means easier shifting and longer life to your gears.

Eliminate "Death Curve" on Waukegan Thoroughfare

Actual construction work on the widening and straightening of Waukegan road to eliminate what has come to be known as "death curve," was started this week.

This particular stretch of road is located where Glenview road enters Waukegan road from the east. It is said to have been the scene of more accidents than any other particular section of this thoroughfare.

The construction of this piece of road and the cutting through of Glenview road will necessitate the expenditure of several hundred thousand dollars, due to the fact that the building of two large new concrete bridges will be necessary in addition to the road improvement.

Christian Science Churches

"Matter" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, March 20.

The Golden Text was from Psalms 46:10, "Be still, and know that I am God: I will be exalted among the heathen, I will be exalted in the earth."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And Jesus went into the temple of God, and cast out all them that sold and bought in the temple, and overthrew the tables of the moneychangers, and the seats of them that sold doves, And said unto them, It is written, My house shall be called the house of prayer; but ye have made it a den of thieves. And the blind and the lame came to him in the temple; and he healed them" (Matthew 21:12-14).

The lesson-sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "As in Jesus' time, so today, tyranny and pride need to be whipped out of the temple, and humility and divine Science to be welcomed in. The strong cords of scientific demonstration, as twisted and wielded by Jesus, are still needed to purge the temples of their vain traffic in worldly worship and to make them meet dwelling-places for the Most High" (p.142).

Boys Rush to Join C. M. T. Summer Units

The "Doughboy" may be the backbone of the army, but the mounted branches have not lost their appeal for young America if the number of applications to attend this summer's Citizens' Military Training Camps from Illinois, Wisconsin and Michigan is accepted as a basis of comparison. Although active enrollment began only March 1, fifty percent of all vacancies in the Calvary and sixty percent of all vacancies in the Field Artillery have been filled, leaving only 193 enrollments among the "Yellow Legs" and 112 among the "Gunners" out of a total of 4,300 to be trained.

CONGREGATIONAL SERVICES

The sermon topic at Winnetka Congregational church Sunday morning at 11 o'clock, by Rev. James Austin Richards will be, "The Answer to Pilot." In the evening at 8 o'clock, Rev. Thomas A. Goodwin will preach on "What Makes Life Worth While."

The Illinois Chamber of Commerce reports 22 new industries located within the state since December 15, 1926.
