

Bahai Leaders Plan Renewal of Building of Temple Structure

Four new local bodies have recently been organized in North America to take an active part in Bahai work. The new Assemblies are the Bahais of Vancouver, B. C.; St. Augustine, Fla.; Ithaca, N. Y.; and Wilmette. There are now forty-six local Bahai Assemblies in the United States and Canada, and twenty-four groups lacking the requisite number entitling them to form Assemblies and send delegates to the National Spiritual Assembly.

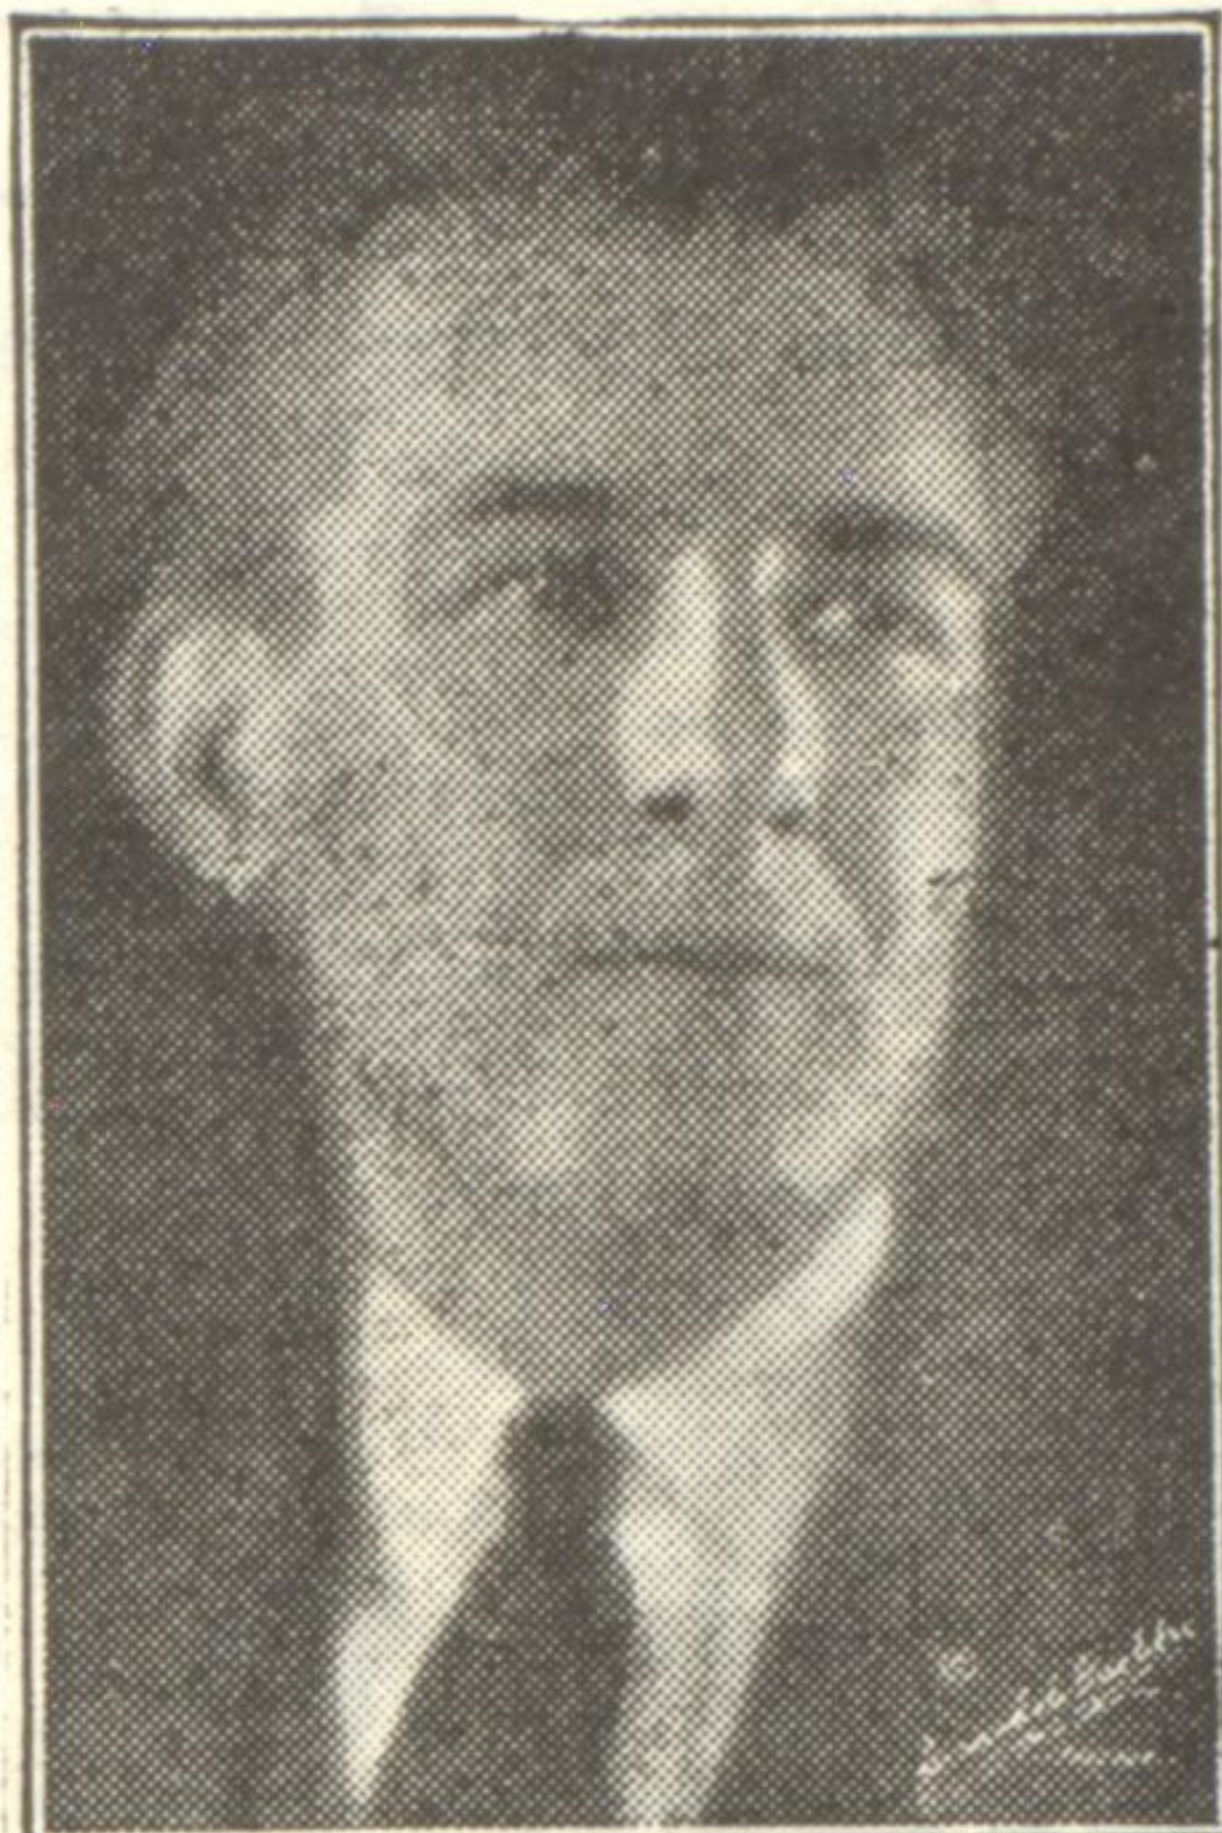

To date nine National Spiritual Assemblies are in existence, four in the Occident, composed of Aryans, the white race, namely: The States and Canada, Germany, Great Britain and Ireland, Caucasus.

The nineteenth annual convention of the Bahais of the United States and Canada will be held at Montreal toward the end of April. It will consist of ninety-five delegates. Among the matters to be considered is the proper legal status for the cause in the United States and Canada in order to observe future legal obligations.

North Shore citizens will be interested in learning that the ensuing national convention will devote attention to providing means for the resumption of construction work on the edifice which is located at Linden avenue and Sheridan road, Wilmette.

The public is invited to attend meetings for the elucidation of the Bahai teachings, Sunday afternoons at 3 o'clock, in the studio of Louis Bourgeois, the architect, at 536 Sheridan road. There is no charge for admission to Bahai meetings, nor are collections taken, it is explained.

Cellist for Concert

Alfred Wallenstein will be soloist at the North Shore Chamber Music concert on Sunday afternoon, April 3, at 4 o'clock, at the Kenilworth Assembly hall. Mr. Wallenstein is first violin-cellist of the Chicago Symphony orchestra, and is a pupil of the celebrated cellist, Julius Klengel. This is the last of the concerts to be given.

A CORRECTION

In the advertisement of the Exide Battery Service of Winnetka, in WINNETKA TALK, issue of March 12, North East, the name of an ignition system handled by this company, was spelled "Norheat." The name is North East, two words, and "eat" has nothing to do with this subject.
