Modern Miss Shoes Make Foot-Sense Stylish

GIRLS are becoming "grown up" faster than they did a few years ago. In the early teens they begin adapting the styles that formerly were for their older sisters alone.

In the matter of shoes this would be dangerous for feet still in the formative stage—except for the fact that Daughter can choose Pool & Piper Modern Miss Shoes, designed just for her.

For in Modern Miss Shoes she finds the style of the twenties, which she wants, built over teen-age lasts that foot health demands.
