Choose Your Accessories With Discretion!

The seeming trifles of a costume are really the things which make its success! For complete effectiveness, study the accessories!

Fine, Sheer, Clear Chiffon Hose
\$1.95

Perfect all-silk hose in the right colors for Spring wear. Dune, the shade of desert sand, is one of the best style shades to harmonize with Spring costume and shoe colors.

Printed or Painted Scarfs
\$2.75 to \$15

For the color note in the black-and-white costume. Or for contrast with the popular black coat. Of heavy crepe de chine, attractively patterned and colored. Some with long fringe.

Clustered Shoulder Flowers
\$1.50 to \$4.50

Antiqued Jewelry
\$1.00

To add chic to the modishly simple costume is the role of this massive, dull jewelry. It is fashioned to represent the old filigree, brooch, locket, and pendant types which our great-grandmothers so favored. In endless variety—at an astonishingly low price!

Properly Tailored Suits
\$29.50

The new suits are mannishly tailored, yet not severe. Most often the materials are firm twills of navy blue or black, the skirts wrap-arounds, the pockets set in, the only trimming two or four buttons or heavy ribbon binding. For service and an ever-neat appearance unexcelled!
