"Builder of Unique Homes"

In Remodeling the Home or in Building a New Home To Order

Bear this in mind. The job is just as sure as the accomplishments of the man who undertakes the job. A builder of new homes knows best how to treat an old house; how to remodel it into something larger or to renovate it as it is. Get my estimate on whatever you are planning. Previous work is my best guarantee.

BUILDING THE DRIVEWAY

The driveway is a very important feature for the man that loves his car as well as his home. The proper drive put in originally, the less repairs there ever need be; and for the drive that needs repair, the sooner taken care of the less damage can be done.

Garages Constructed

There is a knack in not only building the attractive, practical garage, but also in doing so to utilize the space least needed for other purposes.

Screens Made to Order

Have this important part of the household equipment taken care of now.

Make Final Plans for Own Your Home Expo Open April 2

Final preparations were underway this week for Chicago's seventh annual "Own Your Home Building and Equipment" exposition, which opens in the Coliseum, April 2. Already a carload of national building material exhibits is on hand waiting to be unloaded.

People in the greater Chicago area are promised the most educational exposition of its kind ever held. Every type of house construction, together with the planning, selection of the homesite, financing, building, decorating, furnishing and landscaping of the home, will be shown.

The feature of the Exposition is the "Court of Homes," surrounding a garden. Houses of brick, stucco, frame, concrete and faced concrete units will be shown. The front elevations will be finished but the interior will be a cross section appearing like a gigantic knife had cut through them to show how walls, floors, roofs and structural work should be done.

The Exposition is conducted under the auspices of the Chicago Real Estate board. The "Committee of Administration" appointed by the board for the supervision of the exposition includes Harry W. Hopp of Wilmette, and Elmer E. Stults, of the E. E. Stults Realty company.
