**Greeley Pupils Tell of
Hollanders and Farmers**

Two programs of unusual interest were given by pupils of the Greeley school during the past week. Both of the entertainments were a direct outgrowth of their social science work and dealt with life and habits of the particular people the children have been studying during the past few weeks.

On Thursday the third graders gave an interesting portrayal of the people of Holland, telling all about the country and its people and demonstrating many of the customs. The second of the programs, given on Friday, dealt with farm life. In addition to a detailed account of the work and home life of farmers, the children also displayed model farms and farm buildings and danced and sang songs.
