

Kenilworth Boys Look Forward to Camp in Canada

Early indications point to a general migration of Kenilworth boys to camp this summer, according to Robert W. Townley, director of recreation for the village and at the Joseph Sears school. The spring weather provided by Mother Nature during the past few days, has caused an increased interest in the proposition and a number of the boys have already signed up.

Mr. Townley, who has been asso-

ciated with boys' camps for more than twenty years and who has been in charge of boys' work in Kenilworth for the last five years, is to be in charge of the junior division of the camp at Owakonze, Ontario, Canada, this summer. As a result, local boys signing up for that camp will be under the supervision of the man with whom they have been associated during the school period and who for that reason knows them best.

The location of the camp, it is said, offers an ideal place for a practical application of Scouting and the advancement of the boys along those

lines. Explorations, nature study and field craft will be emphasized, according to Mr. Townley, and, as the camp is situated in a section of the country seldom visited in the past fifty years, nature in its natural form may be studied.

Mrs. Dain Fuller of 182 Forest avenue, who has spent the winter at the home of Mrs. Charles Fuller of 97 Indian Hill road, will return to her own home in about two weeks. Mrs. Charles Fuller has lived in Chicago this winter, and will return to Winnetka early in May.

Champ on Rollers

John McFadzean

While 8,000 spectators jammed the side lines, perched on tree branches and lined the house tops, the first collegiate roller skating derby ever staged on an American campus was staged at the University of Illinois last Saturday, with John McFadzean, of Winnetka, playing a stellar part in smashing new world's records.

In the 100 yard dash for men, McFadzean now holds the world's record with a time of 12 4-5 seconds. He was also a member of the Zeta Psi fraternity relay team which captured first place in this event.

McFadzean is a Freshman at Illinois. He is 20 years old. His parents reside at 932 Cherry street, Winnetka. The new roller skating champion is a graduate of New Trier High school, where he also gained distinction in athletics. He was a member of the soccer team during his four years in high school, being captain of his team one year. He was also a member of the regular heavyweight basketball team during the last two years in high school.

He is taking a four-year course in athletic coaching at Illinois, and while he had not previously demonstrated unusual skill on rollers, he is an all-round athlete, and now it is evident that as a champ roller skater, "he is nothing else but."

Set Up Radio Station to Hear Realty Leader

Having a radio station set up expressly for his speech was the novel experience of Mr. C. C. Heiatt, president of the National Association of Real Estate boards.

Terre Haute, Indiana, wanted to share its opportunity with others, so Station WIBJ was temporarily rigged up to send out Mr. Heiatt's talk on "Why a woman's heart is happiest in a home of her own," given on March 17 at 7:30.

Mr. Heiatt compared American and European homes and showed how the American woman has a wider opportunity to have a home of her own and a more livable one.

Telegrams of congratulation were received by the new station from the radio audience.

DEATH TAKES MOTHER

Mrs. E. S. Harlan, 430 Sheridan road, Kenilworth, is leaving for Atlantic, Ia., today where funeral services for her mother, Mrs. Belle J. Waddell, who died Wednesday, are to be held tomorrow. Mrs. Waddell had frequently visited in Kenilworth and enjoyed a wide circle of acquaintances in the village.

"The Voice Returned"

THE "Great Blizzard" of 1888 had blocked railway traffic and disrupted mail and telegraph service. Through the drift-piled streets of Boston groups of men and women made their way to the public telephone stations, anxiously inquiring whether the long distance lines to New York were still in service.

"People did not want a message, they wanted to talk," runs a contemporary story. "They wanted to find out where the other party

was, if he was alive, indeed. ***** It was the voice returned, the personal interview, that was especially valuable."

A telephone conversation is the meeting of mind with mind, heart with heart. Today there are no limits of distance to the interchange of thought that binds all parts of the country together. Created in response to America's needs, a network of 50,000,000 miles of wire has given nation-wide scope to the "voice returned."
