PUPILS GIVE CONCERT

One Hundred and Eighty Skokie School Children to Take Part in Annual Concert

The music organizations of the Skokie school will be heard in their annual concert next Friday night, April 22, at 8 o'clock in the Jane Kuppenheimer Memorial hall. The concert this year may well be considered a school concert as one-half of the enrollment at Skokie will appear in at least one of the participating groups.

One of the outstanding features of the program is the girls' chorus singing in parts. The chorus is composed of nearly one hundred voices and will present a group of selections of unusual interest. Another feature of the program will be the Boys' Glee club which is a new organization at Skokie this year. The boys constitute a regular chorus class and despite the fact that they are not a select group of voices, have acquitted themselves admirably. They have appeared twice before the assembly and have been received with marked appreciation by their schoolmates.

Another interesting group of selections will be Russian Folk songs, given by a girls' chorus class. The group of eighteen girls will present the songs in costume and will not be under the direction of any leader.

The girls' chorus, composed of over a hundred voices, has been picked from the choral classes. The girls' glee club is a selected group of fifty from this chorus. Competition for the latter has been exceptionally keen this year and the resulting chorus is a splendid musical organization. They will present a very difficult number in the second Brahms number, which

contains a contrapuntal passage without accompaniment. The boys' treble glee club is a group of twenty-six picked from the chorus classes, which number above sixty in enrollment. The band has a membership of over twenty and the orchestra has developed some excellent music with its eighteen instruments.

The complete program which will be presented by the one hundred and eighty Skokie pupils is given below. Each of the nine groups will have something to interest any musical taste.
