New Character in Design and Color Expresses the Vogue in Modern Window Treatments

"Marywood"

Tinted Grounds in Cretonnes, \$1.95 Yd.

A striking contrast between sharply defined dark patterns against tinted backgrounds is a new note in cretonnes this Spring. Large floral and verdure patterns predominate.

"Glenbrig"

Color Shading in Damasks, \$2.25 Yd.

Shaded colors are used to secure and unusual effect in this silk patterned damask. Blue and rose predominate in the design pictured.

"Du Barry"

The Pastel Vogue in Chintz, 60c Yd.

A novel development in the new chintz is the use of flat pastel colors on tinted backgrounds where bright colorings were formerly used. This is admirably shown in our Du Barry Chintz.

"Penn's Purchase" by Victor White

Prints for Colonial Interiors, 89c Yd.

These American Centennial Prints picture historical Colonial events in monotones after the manner of Toiles de Jouy. The design illustrated is "Penn's Purchase."
