

CANTERBURY COURT

NEW RIPARIAN homesites very convenient to Chicago are virtually a thing of the past. Therefore the seeker of a fitting location for a home of distinction will recognize the opening of Canterbury Court, midway between Evanston Light and Wilmette Harbor, as an event of the first magnitude.

Developed from the Albert E. Cross Estate, a finely wooded stretch that sweeps from Sheridan Road down to the lake, it easily stands out as one of the beauty spots of the North Shore. Each lot, none with less than a hundred-foot frontage, will face on an ornamentally lighted private drive, and each will enjoy a pleasing view of the lake.

Ample restrictions have been established to assure highest standards. These include the requirement of incinerators and the elimination of coal as a fuel. Telephone and electric wiring will be through underground conduits.

Only nine lots are offered for sale.
