

IF A DEALER doesn't *pay* as much for other Ice Cream as he would have to pay for Hydrox, why should he *charge* as much?

Some dealers don't. They buy a cheaper product and offer it at a lower price. That's fair enough.

Other dealers do. They pay *less* and they charge you the *same*. That's no fair.

Hydrox Ice Cream is made with far more pure cream than the State Food Law requires. And pure cream costs money.
