

In Greater Chicago — Where to Live?

## CHOOSE NOW YOUR NORTH SHORE HOME

With the first breath of spring, the march to the North Shore begins.

Families with children are noticeable among the newcomers. They want the children to have the advantages this section has to offer, in education, in fresh air and sunshine, in social environment and wholesome fun. Ruddy cheeks, bright eyes, clear heads—that's what you find on the North Shore. And the fathers and mothers can be near transportation, the beaches, the open country, the golf courses, the grand opera at Ravinia, in fact, everything necessary to contentment.

Quinlan & Tyson occupy a unique position in this territory. Our offices are the very center of activity; our twelve representatives cover every section; our lists contain exclusive offerings to be found nowhere else. Here is a veritable clearing house of North Shore real estate information.

Lists are being looked over, homes inspected, and the choicest locations taken. To get what you want, you should come soon. It will save you time in finding just what you want. A phone call or a letter will bring our representative to your door.
