

Install Latest in Ventilation System at Theater

Utmost comfort in all seasons is assured patrons of Teatro del Lago by the most modern type of heating and ventilating equipment installed by B. F. Reynolds and company of Chicago. The system is the result of many years of study on the part of the engineers, who have specialized in the problems of theater heating and ventilating. They are at the present time installing heating and ventilation in twenty theaters throughout the country.

It is necessary that a system be exceptionally flexible and with that in mind the heating installation consists of three separate heating units, placed in battery form, so that one or more of them can be operated at a time, depending on outside air conditions to be considered. These units are not subject to the control of the human element but are all thermostatically and automatically controlled through the temperature regulation system. Therefore, the temperature in the auditorium is continually kept at the comfort point regardless of the number of patrons in the theater. Perfect distribution of air is accomplished through the use of three separate fan units which do their part in supplying and exhausting 80,000 cubic feet of air per minute, properly ventilating every portion of the theater.

Reschke Company Builds Teatro del Lago Drives

Paul Reschke, of 1149 Cherry street, Winnetka, cement contractor, had the contract for constructing the cement driveways from Sheridan road and Tenth street and also the 50,000 square feet of parking space at Teatro del Lago. He completed his work Wednesday of this week. The driveways have been done for some time. The work on the parking space, which was begun only a week ago last Monday, has been rushed to completion in record speed.

Mr. Reschke has had twenty-five men and two powerful concrete mixers on this job. This is said to be the only theater in the Greater Chicago area with automobile parking space of this kind. It is an original idea of Ayres Boal and H. O. Edmonds, of the Teatro del Lago company. It is situated directly west of the theater structure proper, and has four entrances. It covers one large area of 50,000 square feet, but is so arranged in sections that cars may conveniently enter or depart at any time.

Spanish Tile Paneling Feature of New Theater

One of the many attractive features of the finished Teatro del Lago, the new theater in "No Man's Land," is the Spanish tile panel which surrounds the announcement cabinets in the lobby. Composed of white block tiles upon which is painted a blue figure it adds an effective finishing touch to the simple but attractive lobby. The work was done by John Caretti and company, 53 W. Austin avenue, Chicago. They were also the contractors in the installation of the tile floors in the stores that are being built in connection with the theater. The Caretti company has done the tile work in a number of well known Chicago buildings among them being the Tribune Tower, Palace Music hall, Medical and Dental Arts building and in Evanston, the new addition to the Evanston hospital.

In 1867, Champaign and Urbana paid almost \$250,000 to obtain the University of Illinois.

Christian Science

"Probation after Death" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, April 24.

The Golden Text was from I Thess. 4:14, "If we believe that Jesus died and rose again, even so them also which sleep in Jesus will God bring with him."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And when he was demanded of the Pharisees, when the kingdom of God should come, he answered them and said, The kingdom of God cometh not with observation; Neither shall they say, Lo here! or, lo there! for, behold, the kingdom of God is within you." (Luke 17:20, 21).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy; "Heaven is not a locality, but a divine state of Mind in which all the manifestations of Mind are harmonious and immortal, because sin is not there and man is found having no righteousness of his own, but in possession of 'the mind of the Lord,' as the Scripture says" (p. 291).

ADDRESSES B. Y. P. U.

Rev. A. E. Rohrbach, pastor of the First Scandinavian church of Winnetka, will speak at the meeting of the High School Baptist Young People's society at the Wilmette Baptist church Sunday afternoon at 5:30 o'clock.

HOLD BAHAI MEETING

Sunday, May 1, at 3 o'clock, the public is invited to attend a meeting in the studio of Louis Bourgeois, architect, 536 Sheridan road, Wilmette. The subject will be "The New Era."

Who's Your Tailor?

Stepping Out with *F. W. Price & Co.* Tailoring

Workmanship by Chicago's best tailors. A tryon service by expert fitters.

A Million Dollar stock of woollens for your selection. Chicago's handsomest exclusive tailoring salesroom at your service.

Our "out of the High-Rent Loop" prices represent a saving you cannot afford to overlook.
