

## Visitors Find Teatro del Lago Structure of Rare Beauty

Adhering in minutest detail to the Early Mission style of architecture, Teatro del Lago, the north shore's newest motion picture palace, has proved a genuine revelation. These illustrations by Lehle taken exclusively for WINNETKA TALK afford an excellent impression of the simple beauty of the interior.

Here we have a splendid view of the spacious auditorium with its genuine atmosphere of the Early Mission period. Also one surveys with amazement and a peculiar satisfaction the appointment of the foyer, with that staircase arrangement, unique and yet not bizarre. All has been done in such exquisite taste.
