

Acres along Skokie Ridge-- a fine home investment

FOR the North Shore's beautiful valley region—served by fast and frequent electric trains—a great future is assured. Three, four and five acre homesites in this convenient, fertile territory afford the city man an unparalleled opportunity to live and profit from the growth that has just begun.

It is an interesting region—newly rediscovered. For a long time transportation lines huddled the North Shore towns close to the lake. But lake frontage was so uniquely restricted north of Chicago that the overflow was bound to come. Now that it has begun, the Skokie—with its entrancing landscapes, plentiful golf courses, fine motor roads, and clear, bracing air—has become the suburbanite's Mecca.

Quinlan & Tyson are pioneers in Skokie acreage, as in all North Shore real estate. Specialization in this region has given them a broad knowledge of values. Their representatives blanket the territory and instantly report current activity. You can have an accurate summary of all the facts on Skokie acreage by applying at a Quinlan & Tyson office.
