BIGGEST TAX RETURN

Township Collector Sanborn Hale Awaits Report Indicating Local Distribution of Taxes

Sanborn Hale, New Trier township tax collector, declared that he had not, up to noon Wednesday of this week, received the statement from the county treasurer showing the distribution of the township tax money, and is waiting only for this statement to get the money into the hands of the various local taxing bodies.

This, he stated, he was able to do last year on May 4, and feels there cannot now be but a few more days' delay in the receipt of the statement from the county treasurer.

Mr. Hale was the first township collector in the county to return his book to the county treasurer. He collected a total of \$1,101,744.33, which is the largest collection ever made in New Trier township, exceeding his record for both 1925 and 1926 and placing his average collection for each of the three years at more than a million dollars.

Collector Hale has always paid the taxing bodies immediately upon receipt of the order from the county treasurer showing the amount to go to each, and will be equally prompt this year, he says.
