The Boy Scout "Cabin in the Woods" just two miles west of Glen-coe, which has been provided for the scout troops of the North Shore Area through the interest of the Cook County Forest Preserve is rapidly nearing completion and the date of the formal dedication will soon be announced.

The cabin is made of natural logs and is 40x44 feet. It is divided into a large room with fireplace where

Scouts will sleep, and a section for cooking and for serving meals. The cabin will be for the use of troops who reserve it in advance. Troops will make use of the cabin at frequent intervals under the guidance of their own Scoutmasters.

More than six years ago individual troops began hoping for some such a week-end haven. Last fall with the uniting of all forces and the formation of the North Shore Area council, the joining of more than 700 Scouts into a cooperating whole, the dream began to come true.

The cabin will be used only for over-night hike use, and is in no sense a substitute for a summer camp where Scouts go to take part in an organized program of activities extending over a period of weeks. The cabin will provide a year 'round opportunity to keep the OUT in scouting.

Dr. and Mrs. J. W. F. Davies leave Monday to spend the summer at Lake Hamlin, Ludington, Mich. The boys of the Winnetka camp will join them there the following week.

*Leads the World in Motor Car Value*

**Special Sedan**  
*Advanced Six Chassis*

**\$1695**  
*f. o. b. factory*

**A Nash Sedan of SUPREME Luxury**  
*—in Appearance—in Performance*

When you see—and DRIVE—this Advanced Six Special Sedan, you'll instantly rank it among the market's **COSTLIEST** cars.

Here is luxury of appearance, luxury of appointment—and **BEST** of all—matchless luxury of **PERFORMANCE!** Yet it's priced at a figure amazingly low.

This Nash—**EVERY** Nash—has a 7-bearing crankshaft motor—with a bearing on each side of every connecting rod. That means super-**SMOOTHNESS** and silence at every speed.

You'll notice at once how it sweeps into action, the instant you step on the accelerator. **POWER**—so smooth, so quiet, so responsive—you'll find a new thrill in motoring.

It has more bearing surface than any other Six in its price-class. And that means **SMOOTHNESS**, too.

It has 4-point motor suspension and rubber cushions insulating the engine from the frame at every single point. That means **SILENCE** and front-end **STEADINESS**.

Then, bear in mind these **OTHER** Nash advantages—straight-line drive for **EXTRA** power and longer life; tubular trussed frame for greater resistance to road shocks; Nash *two-way* 4-wheel brakes for quicker, **SAFER** stops.

Bring in the car you now drive. Use it as part payment on a new **Special Sedan**. Among fine sedans at this price, you'll never find anything to equal this Nash. Come in—**TODAY**—and see.

*(26 different Nash models priced from \$865 to \$2090, f. o. b. factory)*
