

### Some Go East and Some Go West and Plenty to Europe

Vacation plans among the teachers of the Hubbard Woods school assume the diversification of those reported to have been considered by President Coolidge before he finally "hopped off" to the Black Hills. Six of the eighteen members of the faculty will attend the World conference on education which will be held in Locarno, Switzerland. Three others will teach the Winnetka system of individual instruction in educational institutions of the United States; while the remainder will utilize the vacation period for divers purposes.

The Europe bound mentors of education are Miss Luella Swartz, Miss Rose Damberg, Miss Ruth Damberg, Miss Anna Cox, Miss Margaret Carswell and Miss Marion Carswell. Miss Marion Carswell is the principal of the school.

Mrs. Mildred Hughes will demonstrate the Winnetka system at the Colorado State Teachers college in Greeley, Colorado, and will later travel in the west.

Miss Ella Marie Kamplin will leave within the next few days for her home in South Dakota.

Miss Ethel VanCleve will be among those enjoying the beaches of the north shore.

Miss Frieda Barnett will teach in the summer session of the local schools.

Miss Catherine Smith will demonstrate the Winnetka system in the Missouri State Teachers college at Cape Girardeau, which is one of the cities recently visited by floods. Her friends are urging her to take along a pair of boots.

Miss Lila Graham will leave shortly for her home in Coffeville, Kansas, and

### Summer Session for Local Schools to Start Monday

The regular summer session of the Winnetka schools will open next Monday, June 20, at 9 o'clock in the Horace Mann school. Classes will be held every morning from 9 o'clock to 12 for children in all grades from first to eighth and will be conducted upon the regular plan of Winnetka individual instruction. They will be confined to the fundamental subjects.

The teachers for the summer session, it was announced, will be as follows: primary grades, Mrs. Frieda Barnett from the Hubbard Woods school and Miss Milicent Anderson from Horace Mann. The teachers of the middle grades will be Miss Josephine Bryan, formerly of Horace Mann, Miss Jeannette Baer from Greeley and Miss Mabel Ducker from Horace Mann. Teachers of the upper grades will be Miss Gertrude Nethercott from Horace Mann and Miss La-Reina Bubbett from Skokie. Miss Bubbett will be principal of the Summer School.

Mrs. E. F. Colburn, mother of Mrs. M. W. Frissel of 562 Hawthorn lane, left Wednesday for Oshkosh and Chippewa Falls, Wis. She has been visiting her daughter since Christmas.

will later travel in the West.

Miss Mona Graham is spending a few weeks at her home in Glenwood, Iowa, and will also be among those in the West during the latter part of the summer.

Miss Ruth McNamara will be teaching the Winnetka system at the La-Crosse Normal, at LaCrosse, Wis.

Miss Olga Leap will be doing settlement work in New York City.

Miss Esther Robinson will teach social science "a la Winnetka" in the summer school at Detroit, Mich.

## "Forewarned is Forearmed"

When an enemy threatens to strike, friendly warning and assurance that help is available is a message of cheer.

In this instance the enemy is a disease capable of affecting man and his animal companions. It is rabies, known also as hydrophobia. But thanks to the great work of Pasteur and other scientists, both medical and veterinary, this disease is no longer capable of causing death and destruction when modern means of prevention are intelligently employed.

It has been more than four years since a rabid dog has been observed in any of the North Shore towns but recently two cases occurred in Winnetka, hence this friendly warning is issued to all dog owners on the North Shore. With this warning comes positive assurance that it is practical to immunize dogs against rabies by one single administration of a prophylactic treatment.

If all dog owners in this territory have their animals immunized against rabies promptly, not only will these dogs be safe, but the threatening enemy will be practically stamped out of existence hereabout within less than six weeks. Rabies is an infectious disease that is communicated usually by the bite of an animal that has the disease. Weather, climate and season have no influence on rabies.

Being anxious to protect all dogs against this enemy and desiring to forestall anxiety and expense for their owners, the following veterinary practitioners have made preparation to cope with the situation promptly and efficiently, if animal owners will cooperate without delay. Telephone for an appointment and take your dog—toy, pet, companion or guardian, to your veterinarian for immunization today.
