

Vol. 16
July- Dec.
1927.

Let us give you a figure
on your
House Heating Now
so that you may have
this comfort for this
coming winter.

Automatic Gas Heating lets your Pup be the Furnace Man!

BRYANT
GAS
HEATING

GAS heating is absolutely carefree. With a Bryant Gas Boiler or Gas Furnace in the basement of your home, you can let your pup be the furnace man—that's all the furnace tending you'll need!

Gas heating is clean. No coal or ashes to shovel. No soot, dust or dirt. No oily vapors or odors. No noise of roaring oil flames. No fuel storage whatsoever.

None of the insidious grime of other fuels to seep through the house. With gas heating, a new cleanliness is apparent throughout the entire home.
