Optience Sings While it Waits for the Hair Trim

Just as Jackie Coogan was in the midst of getting a hair cut last Friday night at the Village theater, the optience was suddenly plunged into total darkness and an hour of fun when the power lines were carried away by a falling tree. Milton Hosking immediately went into service at the piano—the new organ not being completed at that time—and kept up a running barrage of notes; to which the audience kept accompaniment with feet and vocal chords according to ability. A genuinely good time was had by all, while the Public Service repair crew worked on the broken line.

Wilmette Girl to Attend Walther League Sessions

Miss Adele Wegner is to represent the young people of St. John's Lutheran church at the International convention of the Walther league, an organization of 50,000 Lutheran young people, united in 1,700 societies to be held at St. Louis, Mo., July 17-21. Several other members of the local society are planning to attend the sessions.

Bladder Infections

The bladder is an organ of the human body which receives very little thought or attention until, in later life, it often becomes a source of much suffering, misery, torture. The bladder is pretty closely linked up with the kidneys and unhealthy kidneys may easily affect the bladder. The regular use of Mountain Valley Mineral Water from Hot Springs, Arkansas, is one of the best means of protecting the health of your kidneys and guarding against bladder misery. Doctors prescribe it—a prominent doctor has said, "There is no better water in the world for ailments of the kidneys and bladder." Come in and read this letter and hundreds of others we have in our files. Or phone us today.

12,000 Visit Bank on Opening Days of New Building

Twelve thousand people visited the new State Bank and Trust company of Evanston, last week when it opened its doors formally to the public. Beginning at 8:30 each morning and lasting until 10 p. m. Saturday night a constant stream of guests entered the bank and were shown through the entire new structure.

Officers of the bank met them at the top of the entrance stairway and invited them to be shown through the bank by guides or to go through it at their own direction. Three quarters of the 12,000 were shown through by guides who took them first to the officers' space, director's room and then back of the cages surrounding the main lobby. Next they were shown the vault room in the basement, the coupon booths and trunk storage space and the community room. On the third floor next they visited the trust department and the advertising department, went through the mezzanine passageway, past the telephone switchboard overlooking the lobby and down a back elevator to the main floor.

Behind the scenes they saw demonstrated the operation of the electrical machines which have been installed to assure customers' efficient and rapid service. The ornamental wrought iron grilles, fixtures and lobby equipment, the beautiful color work of the ceiling and the colored floor tiles were objects of admiration of the visitors. The architectural beauty of the lobby was augmented by floral decorations, a hundred baskets or more, the gifts of other banks from many parts of the country, of commercial houses of Evanston and houses with whom the bank has business, and of many individuals.

The Blackstone quintet played in the lobby of the bank Friday evening and Saturday afternoon and evening. Each of the visitors was presented with a rose and a card to sign if he wished a copy of the brochure the bank is now publishing.

Bank employees acquainted with the features of the new building showed the guests through it. Many old directors of the bank and old customers visited on the opening days. Pictures illustrating various departments of the bank and showing a part of the crowd will be found on page 37.

158 Pupils Enrolled in Winnetka Summer School

One hundred and fifty-eight pupils are enrolled in the summer school which is being held at the Horace Mann school, according to Miss LaReina Bubbett, principal. The enrollment is the largest in the history of the school and includes a number of out-of-town children. The classes are mainly of the lower grades; very few of the Skokie pupils having signed up for work. Most of those in the school are there in the interest of getting along in their work faster and not because of delinquency during the winter term, Miss Bubbett states.

Willard Beatty Teaching at University of Chicago

Willard J. Beatty, formerly the principal of the Skokie school and Assistant Superintendent of the Winnetka schools, has returned to the North Shore for the summer. Mr. Beatty is teaching at the University of Chicago summer session in the School of Education and is occupying the Harry Clark residence on Spruce street.

Mr. Clark, director of Physical Education in the Winnetka schools, is teaching in the Physical Education department of Harvard University during the summer.
