

*"Let 'er Slide"—New Water Works Slogan*

Here's an idea for local beach devotees. Just slide down the bluff chutes and save wear and tear on shoe leather. Yes, the chutes depicted here have been erected at the Glencoe beach, but alas, not for bathers. They are, on the contrary, utilized to convey material from atop the bluff to the beach level for the new Glencoe municipal water works. Things are getting underway in the construction of the plant and intake, as indicated in the above illustrations.
