

**NORTH SHORE
GAS
SERVICE**

THE PUP IS FURNACE MAN

Let the Gas Company Heat Your Home

ENJOY the carefree heating service which your gas company can provide. With a good automatic gas heating plant in the basement of your home, you can let your pup be the furnace man—that's all the furnace tending you'll need!

Trips to "fix the furnace" are timed by the calendar—not the clock. In the Fall you light the pilot burners.

That one match is all the kindling needed for a whole winter's heating.

The basement, once a drab, grimy spot, to be visited only upon necessity, with gas heating can be transformed into a cheerful, livable part of the house—a "putting green," a clean, usable workshop, a healthful playroom for the youngsters, or a cozy retreat for an evening's reading.

**BRYANT
GAS
HEATING**

Gas—at our special low house heating rate—offers the finest heating-service-value which money can buy.

A 16-page booklet, telling in detail of the carefree comfort which gas can bring to your home, will be mailed to you gladly, upon request.
