

Lee Says:

IT'S our honest BELIEF that there ISN'T an article in THE average bath CABINET equipment that IS enjoyed any more THAN a bottle of HOUBIGANT'S toilet WATER—

FATHER splashes his FACE with it after he SHAVES, and how cool AND fresh it feels AFTER the splash! And MOTHER and the daughters FIND it invaluable as AN antidote for that STICKY hot-weather FEELING—and if you're NOT now enjoying the CONTENTS of one of THESE bottles we urge THAT you annex one RIGHT away because YOU'RE actually missing ONE of the pleasures OF summer just so long AS you are without it— WE have this line DISPLAYED in our toilet GOODS case at the REAR of our store.

Hubbard Woods Firm Supplies Materials for Glencoe Projects

The building of the new \$425,000 water works plant in Glencoe, which is now well underway and is one of the largest contracts of that nature that has been undertaken on the north shore for a number of years, will require a train load of material of various kinds.

Steel, iron and cement comprise the greater part of the material used, but there are also vast quantities of lumber necessary for forms, chutes and other construction, and this is being furnished by the Hubbard Woods Coal & Lumber company.

The huge trucks of the Hubbard Woods company have also been busy the past few weeks delivering material in the extreme northwest part of Glencoe, where they are supplying the lumber used in the construction of the new club house of the Glencoe Golf club.

Plans for the organization of a community football team were completed this week and the actual organization of the team will start immediately, it has been announced.
