

Business Education

Business life particularly demands trained service and ability to work with a minimum of supervision.

Stenography, Bookkeeping, Secretarial Training—all the commercial branches contribute to the training required in commercial life. They are the foundation of things upon which business is built.

If for any reason you can not go to High School, or cannot complete your course, then a Business Education is almost a necessity.

N. U. Football Tickets Are Counterfeit Proof

The counterfeit ticket problem which for years has harassed ticket managers of large sporting events has been solved by the football authorities at Northwestern university. The football tickets to be used at the university this fall have been made counterfeit proof.

A special made mill stock which has been prepared by the Arcus ticket company of Chicago is so constructed that two colors appear in the pasteboard. The exterior is white while the interior is red. When the gate man tears off the stub he can tell at a glance by the medium of the two color scheme whether the ticket is counterfeit.

Hand drawings of Dyche stadium and McKinlock campus appear on the face of the ticket, making an unusually attractive design. The pasteboards are already being printed and will soon be in the mail to early purchasers of season tickets.

Milton J. Timberlake of 229 Roger Williams avenue, Highland Park, is spending two weeks with his brother and sister in Jackson, Mich.

Secretaries School to Close Saturday; Many Take Courses

Several hundred secretaries attending the seventh annual session of the School for Secretaries at Northwestern university will write their final examinations Saturday morning and this summer's two weeks' course will be finished by noon. Only six of the students left at the end of the first week's work which consisted of technical courses.

Satisfaction with this year's school was expressed by Loren P. Meyer, speaking for the Evanston Chamber of Commerce, who stressed the fine spirit among those in attendance. Besides the regular class work, the commercial secretaries have engaged in a large number of extra-curricular activities and the Evanston merchants have helped make their stay pleasant.

Many of them enjoyed free movies at the Varsity theater Monday through the courtesy of Clyde Elliott, manager. Luncheons have been held each day at the North Shore hotel. Yesterday's program, as that of the preceding Wednesday, was under the charge of the Evanston Chamber of Commerce. Peter N. Jans headed the program committee and arranged to have Prof. S. M. Szymczak, professor of philosophy at De Paul university, college of commerce, speak on "Business Philosophy." Besides there was musical entertainment.

Two hundred couples attended the school cotillion at the North Shore hotel Tuesday evening. Other features have been visits to the Northwestern observatory, men and women's tennis, golf and bridge tournaments, and breakfasts and dinners by certain groups.

Several members of the Northwestern university faculty have given courses in the school. Prof. C. D. Hardy, school of speech; Prof. Ralph E. Heilman, dean, school of commerce; Fred F. Clark, professor of marketing; and H. A. Finney, professor of accounting have all had classes.

Different courses are being given for commercial organization executives and trade organization executives. Among the classes this week are present day economic problems, office administration, principles of executive management, problems of the Chamber with a small staff, conventions, publicity, effective expression in print.
