

Building and Remodeling

Remodeling is an art in itself. In order to get the best results it is necessary to have men experienced in this line. The men employed by Mr. Ekemann are of this caliber.

B. H. Barnett Joins Up With R. S. Hambly & Co.

B. H. Barnett has formed a permanent connection with R. S. Hambly and company, who have operated on the north shore for several years and who recently moved their main offices from the Loop to the new Teatro del Lago building, 904 Spanish court, North Sheridan road, Wilmette.

Ornamental chimney tops *on so many chimneys have practical as well as esthetic value. They add height to a chimney and in this way increase its draft.

Fine Building for Chicago's Internes

Chicago's big hospital center is going to have a \$1,000,000 building for the internes. It is to be erected at the northeast corner of Wood and Van Buren streets. Plans have been drawn by Hall, Lawrence & Ratcliffe for a thirteen story structure. In the upper floors there'll be 144 suites of rooms for the medical students. Each will be arranged with a living room and bed room while a few will have kitchenettes, similar to the newest dormitories at the eastern universities, according to the architects.

You Can Tell Even by the Garages I Construct . . .

that I put only the most careful, practical, construction into what I build . . . So if you are planning a New Home or any Remodeling

North Shore Vacant Is Becoming Scarce Say Winnetka Brokers

Vacant property on the north shore is becoming very scarce as the summer season draws to a close.

Real estate brokers operating in this section declare that they have disposed of many parcels of land to persons who intend to build homes in keeping with those already constructed.

"North shore vacant has always had a ready sale," says a statement issued by Crosby & McKendry of Winnetka. "This summer we were surprised by the extra heavy demand for desirable building sites. The speculator seems to have been eliminated, and most of the sales being made now are to persons who intend to build homes."

One particular piece of property being offered by this firm is a plot in Lake Forest, adjoining the Onwentsia Country club, in the district of nine and ten acre estates. This property is 200 by 235 feet and is heavily wooded.

The trees are fully grown, and it lies on a private road far away from the transient automobile traffic. Another feature is a clay tennis court, so situated that it will interfere with building operations.

New Italian Club Will Cost \$300,000

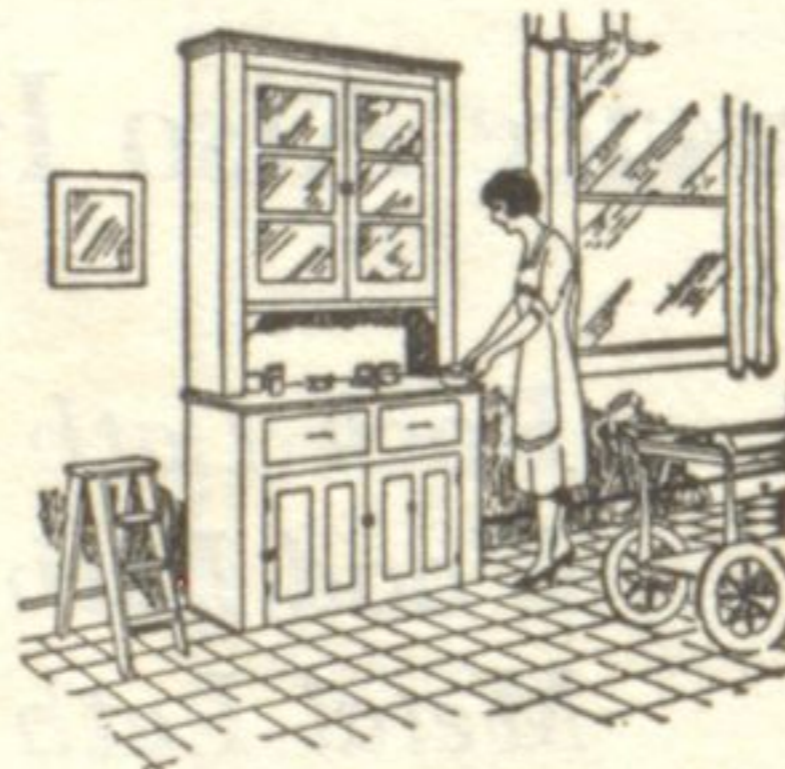

A newly formed Italian club of Chicago is going to build a \$300,000 home instead of the customary one with a cost running into the "millions." There will be the usual lineup of club features, including an athletic department, dining room, men's and women's rooms, card rooms, a ballroom, and the like. It is designed by Alexander V. Capraro, and the new structure will be in the Italian renaissance style of architecture, four stories high.
