Big Accounts From Systematic Savings Grow

Set aside a certain part of your income to SAVINGS—the
average amount should be twenty per cent. Never deposit
less than what you set out to do—and never "cut down"
on clothing or recreation expenditures to deposit more.

Do not depart from this procedure and in a comparatively
short time your saving plus compound interest will accrue
to an appreciable amount.

Start an account at this bank—where personal interest is
emphasized to the utmost degree.
