### North Shore Line Shows Train at Wisconsin Fair

Hon. Fred R. Zimmerman, governor of the state of Wisconsin, was the guest of the Chicago, North Shore and Milwaukee railroad at luncheon Wednesday, August 31, at the Wisconsin state fair which was held at Milwaukee last week. The following day, Thursday, September 1, Mayor Daniel W. Hoan and other city officials of the city of Milwaukee were the guests of officials of the North Shore line.

One of the leading attractions at the fair was the exhibit of the North Shore line, which consisted of a three-car-all-steel train, which was stationed on a special siding just to the left of the main entrance. The train includes a passenger coach with the new individual bucket-type seats just recently added to the North Shore line equipment, a dining car and an observation parlor car. These are types of the standard equipment being used daily between Chicago and Milwaukee. The luncheons for state and Milwaukee officials were both held in the dining car of this exhibition train.

### Illinois Football Ducats Go on Sale September 14

These are busy days in the football ticket office at the University of Illinois now that the sale for the approaching season is in full swing. "Chilly" Bowen, new ticket manager, is finding plenty to do in supervising the work of a large force of clerks whose activities are increased with every visit of the mail carriers.

The office will be even busier on September 14 when the general sale opens and the mailing of general orders begins. More and more, the office

force tells you, the public is learning that obtaining tickets is a lot easier than some persons imagine. The wisest fans, they say, hamper their orders with little instruction, and this latitude permits the office to give them the best locations available at the time.

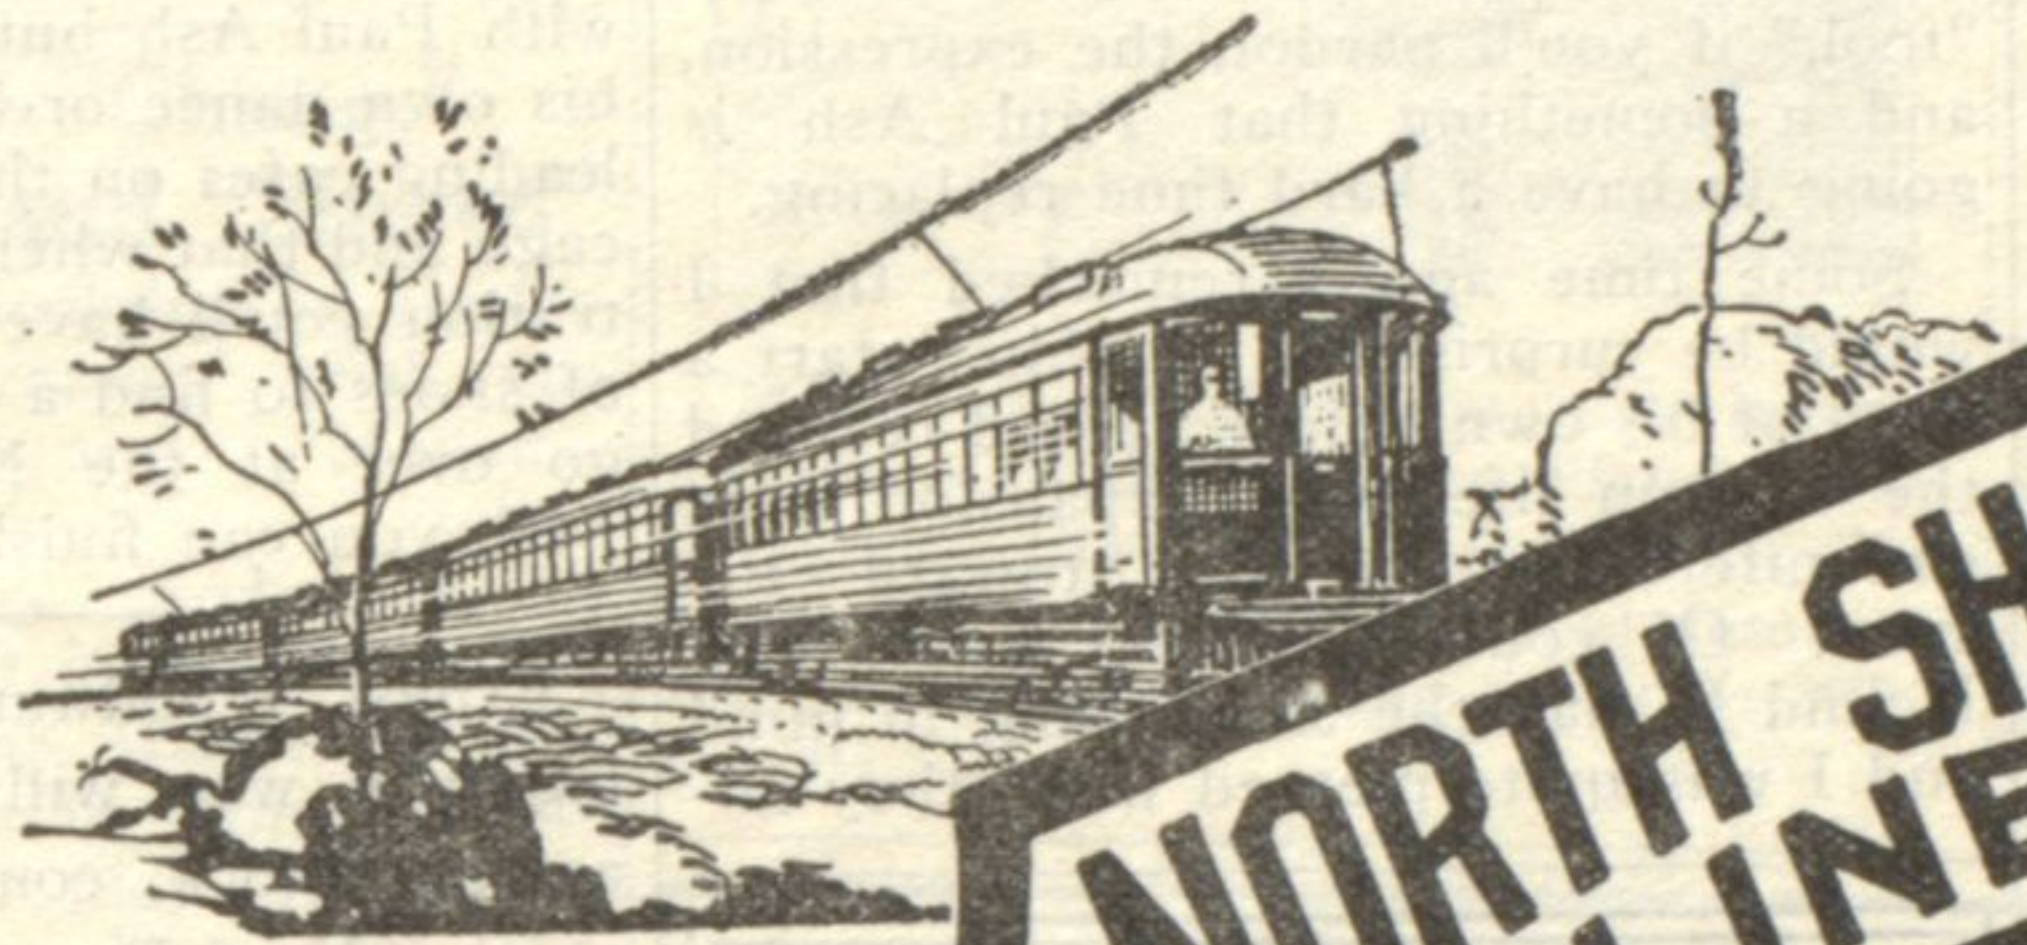

Beginning September 14, there are no restrictions on the number of tickets allotted to any applicant. Many fans in various cities already have ordered blocks of tickets which will be mailed when the general sale opens. It is estimated that at least 25,000 seats for enthusiasts other than alumni, students and faculty, will be avail-

able for the Michigan and Chicago games, the big home contests in the stadium.

Illinois was acclaimed as being supreme in the poultry raising industry by the World' Poultry congress which convened in Montreal.

The following taken from a letter to Mr. Luke Grant, editor of "The North Shore Bulletin" is self-explanatory: "I have been reading your Bulletin for three years, and was so favorably impressed I decided to take a ride on the North Shore Line to satisfy my curiosity. I did that very thing, the Missus and I. We rode from Chicago to Milwaukee and return. We found your road, equipment and service everything you claimed and a little more. We were so well satisfied we went downtown next day and invested in a block of C.N.S.& M.R.R. stock. We were satisfied an organization of your kind had the right idea and is bound to succeed!"
